

# CITY SEEKS STATE'S APPROVAL OF SEWAGE PLANT

## Can't Stop Smith, Friends Say

### SMITH VICTORY IN CALIFORNIA PROMPTS CLAIM

Even Ultra-Dry Leaders  
In Democratic Party  
Concede It Now

### DELEGATES NEAR TWO-THIRDS MARK

Smith Chiefs Predicting  
He'll Be Nominated  
On First Ballot

Washington, May 2.—Almost the last faint chance that Al Smith "can be stopped" at Houston next month flickered out today in the wake of the California primary, which saw the New York governor score a smashing victory over his chief rivals for the Democratic nomination.

The governor's friends were jubilantly proclaiming today that "Al is in" and even the ultra-dry and anti-Tammany bitter-enders were disposed to concede it. There is scarcely a Democratic leader in Washington today who now believes that Gov. Smith will fail to attain the necessary two-thirds of the convention, although some of them, for local reasons, are not shouting it from the house-tops.

**508 Committed To Al**  
By his victory in California, which was hailed as the big test of Smith's appeal in the west, the governor has now run his total of favorable and committed delegates to approximately 508.

This is out of a total of 568 delegates thus far selected, so that Smith is running on a percentage basis, far in excess of the required two-thirds. And of the 158 delegates chosen who are not definitely committed to Smith, it is known that some will vote for him after paying their respects to favorite sons.

Smith lieutenants in Washington were predicting today that he will be nominated on the first ballot. Certainly if the governor can maintain the dizzy pace he has set thus far, among the 442 delegates still to be selected, their predictions will be borne out. Smith needs roughly about 200 delegates yet, and his friends say there will be no difficulty in obtaining them.

**Strength In West**  
While appreciating the numerical value of California's 36 delegates, it (Continued on Page 4)

### KEEP BUSES OFF MAIN ST., PLEA

Recommendation of Safer  
Brings No Action By  
City Council

Recommendation that buses be ordered off Main st. and that they be instructed to use High and Pershing instead, was made to city council Tuesday night by Safety Director Rex W. Ruggie.

Ruggie asked that the traffic code be amended to take care of such suggestions.

City Solicitor Cecil K. Scott told council that in his judgment the buses could not be kept off any streets. But that council can abolish bus stops on Main.

No action was taken, other than to file Ruggie's recommendations. It was indicated that individual study will be made by council members of this problem before next meeting.

Ruggie further recommended that the traffic code be amended so that the "no-left-turn" regulation at Broadway and Pershing be abolished.

### Alarming Increase In Pneumonia Death Rate Under Study

Chicago, May 2.—An alarming increase in deaths from pneumonia is monopolizing attention of delegates attending the annual Illinois Homoeopathic Medical Association convention in session here.

Chicago has just gone through three distinct epidemics, all regarded as contributing factors to the high death rate from pneumonia, according to Dr. Frank Brannen of Chicago. These epidemics were listed as "influenza, old fashioned grippe, and epizootic."

Epizootic, Dr. Brannen explained, is a malady not necessarily dangerous, but "decidedly uncomfortable."

He declared it affects humans like distemper in dogs and horses. Flu and grippe, he said, are stepping stones to pneumonia.

### Daring Trio Of Ocean Flyers Receive Official Acclaim In Capital Ceremonies Today

Washington, May 2.—The daring trio of two Germans and an Irishman who wrote a new and brilliant page in aeronautical history by spanning the Atlantic in the first east-to-west crossing, came to Washington today and received the plaudits of the government and the populace for their stirring achievement.

The capital has no towering skyscrapers from which to shower down storms of ticker-tape upon its honored visitors, no hysterical millions to scream a welcome and mob them, but every official from President Coolidge down to the admiring flappers in the government departments joined today in an unfolding panorama of official recognition and high praise for the heroic crew of the Bremen.

**Few People on Streets**  
There was little of the tumultuous acclaim of New York's reception, however, in the Washington welcome today. There were few people on the streets when the flyers made their first appearance, and not many more when they left Bolling field and motored back to their hotel after the welcome at the field.

The flyers arrived here early this morning by train and slept until 8 o'clock in their special Pullman car which was parked in the union station grounds. They breakfasted at the Mayflower Hotel and then

### PLANT 50 TREES IN SALEM PARK

Park Commission Plants  
Trees Donated By the  
Kiwanis Club

The first step in reforesting Centennial park was taken by members of the Kiwanis club yesterday. A trip to the S. J. Broomall farm was made and 50 trees, oaks, maples and birches were dug up and taken to the park for planting.

Planting of the trees will be done by the city park commission today according to the announcement. J. R. Stratton, of the Kiwanis reforesting committee, stated that reforesting the park is only a part of the improvements needed and other civic organizations should take further action to help improve it.

Following the planting of the trees today, another trip will be made to the farm, and more trees planted if necessary.

### SARBIN'S STORE PLANS OPENING

Sarbin's furniture store is today announcing special preparations to observe its third anniversary as a growing business institution in Salem.

The anniversary sale, starting Thursday, also marks the formal opening of its new quarters, where greater floor space is providing amply for its increasing business. Souvenirs will be given away Thursday night.

Mr. Sarbin opened a furniture store in Salem three years ago, and early this year he leased the rooms formerly occupied by the National Furniture Co. in order to take care of the growth in business. His opening and third anniversary sale have been combined into one celebration.

### FIRE DESTROYS BIG CLUBHOUSE

Youngstown, May 2.—The Youngstown Country Club's clubhouse was in ruins today following a disastrous fire that was believed to have been caused by defective wiring early today. Damage was estimated at \$500,000.

Seven guests lost their personal property in the building. Several women employees of the club were carried from the burning building after having been overcome by smoke.

### Flies Rescue Plane Back To Ford Field

Miller Field, Staten Island, N. Y., May 2.—Bernie Balchen hopped off for the Ford aviation field near Detroit in the Ford monoplane which was used to rescue the Bremen fliers from Greenland island, at 10:40 a. m. today.

The plane had been here since last Saturday when Balchen was forced to abandon a proposed flight to Washington from Curtiss field, Long Island, to bring back the Bremen fliers, following their trip to the grave of Floyd Bennett.

### 2 MORE STREETS ADDED TO CITY PAVING PROGRAM

East Fourth and Section  
Of Fifth St. Placed  
On New Program

### EQUIPMENT FOR WHITE WAY HERE

Council Passes Sidewalk  
Resolutions, Order-  
ing Improvements

Last Fourth st. from Ellsworth to Garfield and East Fifth from East School to West School were added to the active improvement program by city council Tuesday night when City Engineer F. S. Barckhoff was instructed to prepare estimates of the cost of such resurfacing.

Action was taken after Service Director C. A. Cavanaugh recommended that Fourth and the one block on Fifth be surfaced before the foundations are in bad condition. The brick tops of the pavements are in very poor condition and resurfacing should be undertaken as soon as possible, Cavanaugh said.

Cavanaugh urged that the streets committee investigate the two streets, but immediate action was taken by the council after Chairman Max Adler of the committee recommended that the director's suggestions be accepted. Adler made the motion instructing the engineer.

**Another Step Taken**  
Further steps were taken toward the improvement of East Fifth from Ellsworth to Hawley, excluding the East to West School block; Sugar-tree alley and East Pershing from Depot to Lincoln when council passed ordinances declaring it necessary to proceed with these improvements.

Fifth and Sugartree are to be paved with concrete or concrete and asphalt. Pershing will be resurfaced. Necessary legal steps have been under way for several weeks, and action last night was in line with this schedule.

Progress is being made on the paving of Vine, Goshen and Perry streets. Excavation preliminary to the construction of the base of the streets has been under way this week, and this work is being completed on Perry.

Gas, sewer and water connections with main lines should be made on (Continued on Page 4)

### RENAMING PLAN GETS APPROVAL

Better Business Bureau  
Also Favors Renumber-  
ing of Streets

The Better Business Bureau favors the proposed plan of city council for the renumbering and re-naming of city streets, council was advised last night by a communication from President Arthur K. Switzer of the bureau.

The little inconvenience that the new plan would cause would more than be balanced by the great improvement the plan would effect, Switzer said.

Chairman Max Adler of the special committee named to draft the program reported progress in the committee's study. The committee is not ready to report to council with recommendations, but intends to have its recommendations ready within a short time.

### Burglar Is Given Sentence For Life

Akron, May 2.—Jesse Brosier, 41, Loganport, Ind., was given a life sentence in Ohio penitentiary by Judge L. S. Pardee here. Brosier was convicted of burglarizing the residence of A. H. Noah. The jury was out only 13 minutes.

### HUGE RUM RUNNING PLOT BEFORE COURT

Toledo, May 2.—A gigantic rum running plot involving the use of airplanes, speedy motor launches, high powered automobiles and an extensive signaling system for use of rum runners from Canada to Toledo was today before the federal court, it was revealed by United States officers.

Alfred Mominie, owner of a large farm near Toledo, and John and Joseph Nemet were under bond awaiting trial on charges of violating the Volstead act, customs laws, revenue acts, and illegal possession and transportation of intoxicants. Additional arrests of an aviator and several motor launch operators were expected today.

The rum running headquarters, according to Assistant United States Atty. Lee N. Murlin, were maintained on Mominie's farm, where airplanes, guided by a blinker signal system, landed their liquor cargoes. The signal, composed of red, green and white lights, visible only from Canadian shores, was found on a 20-foot pole on the farm.

### BECOMES EXCHANGE PARTNER AFTER 2 YEARS

Seymour N. Sears, Jr., of Grantwood, N. J., generally known as "Sy," is being congratulated by his fellow office workers after he is made a member of the New York Stock Exchange.

### SMITH LEADING BY BIG MARGIN IN CALIFORNIA

Governor Runs Far Ahead  
Of Reed and Walsh,  
Returns Show

San Francisco, May 2.—A decisive victory for Gov. Alfred E. Smith was indicated today by incomplete returns from the Democratic vote in California's preferential primary election yesterday.

Out of a total of 9,044 precincts throughout the state, returns from 5,713 showed Smith to be leading by more than 30,000 votes over the combined poll of both of his opponents for the Democratic presidential nomination, Senator James A. Reed of Missouri and Senator Thomas J. Walsh of Montana.

While the New York governor had garnered a total of 100,528 ballots, Reed had polled 40,128 and Walsh, 29,504, in the reported precincts.

Despite the light vote cast throughout the state Herbert Hoover, sole candidate on the Republican ticket, was accorded a good-sized "confidence vote" of 403,508 in the 5,713 precincts thus far tabulated.

It is estimated that approximately 35 per cent of the 1,849,979 registered voters cast ballots in the election. This is ascribed by political observers to the absence of a contest in the Republican ranks in a predominantly Republican state.

As tabulation of the ballots proceeded, indications pointed to a steady growth in Governor Smith's lead. Out of the precincts already tabulated, approximately four ballots had been cast in his favor to each one for either Reed or Walsh.

In 1,785 precincts out of the 2,607 in Los Angeles county, the most densely populated county in California, Smith was accorded a plurality of more than 13,000 votes over Walsh, who was officially supported by the William Gibbs McAdoo faction, and a plurality of more than 8,650 over Reed.

### WICKLINE NAMED HEAD OF EAGLES

Harry Wickline was elected president of Quaker City aerie No. 315, P. O. E., at the election of officers held at the Eagles hall last night. Wickline will be installed, together with the other incoming officers, by Past President H. J. Bush, Tuesday, June 5.

Other officers elected are: Vice President, F. R. Nease; chaplain, Forrest Green; secretary, H. W. Pealy; treasurer, J. C. Edwards; outside guard, Ira May; inside guard, C. F. Kyle; trustee for three years, Hugh Donahoe; lodge physician, Dr. C. A. Rhodes.

Three applications for membership were accepted, and the date of initiation set for Sunday afternoon, May 13. At this time a class of 20 will be initiated.

At the close of the business session a smoker and social period was enjoyed by the members.

### Pat Brannon Speaks At Rotary Meeting

Earl W. "Pat" Brannon, general secretary of the Warren Y. M. C. A., was the speaker at the weekly meeting of the Rotary club yesterday noon. Brannon spoke on "You and Youth."

Following Brannon's speech, Wilbur J. Springer, athletic director of Salem High school, gave a short sketch of the trip to the Midwestern Relays, with his pole vaulters, Keith Roessler and Lowell Allen, who tied for first place in the meet.

### ENGINEER WILL TAKE PLANS TO CAPITAL FRIDAY

Health Dept. Approval to  
Pave Way For Bids  
For Contract

### WORK MAY BEGIN MIDDLE OF JUNE

New Disposal Plant May  
Be Ready For Use By  
Early Winter

City Engineer F. S. Barckhoff will go to Columbus Friday to submit in an informal manner the plans of the new sewage disposal plant to the state department of health.

Plans are now in such shape that the engineer is able to give the state a complete informal outline of the proposed plant and if no major changes are recommended by the state's engineers, a date will be set for the opening of bids for the contract for the plant's construction as soon as Barckhoff returns from Columbus.

If Barckhoff is able to follow this tentative plan, it is probable that the contract will be awarded sometime this month. This will mean that construction may begin about the middle of June, the engineer said today.

Added by an augmented force of draughtsmen and clerks, Barckhoff has been working on the task of preparation of the plans for many weeks. He has a huge volume of data ready, and would have been able to present it to the state department before if the state had been able to grant an earlier date for the conference.

It is expected that F. H. Waring, acting chief engineer of the state department, and Dr. John H. Monger, director, will attend the conference, inasmuch as the Salem plant will be one of revolutionary construction.

This city will have the only activated sludge treatment plant in Ohio, and will be a model from which, prominent experts have predicted, future plants elsewhere will be patterned. "It will do a large amount of work in a small compact manner by aeration by means of compressed air, and this feature is expected to be discussed thoroughly by the state officials."

The plant was authorized by the voters last November. It is anticipated that it will be ready for use before next winter. Plans for the maintenance of the plant are now being considered by city council.

### FINES ASSESSED IN BOOZE CASES

Three Fined \$500 Each by  
Mayor; Fourth Will Be  
Tried Thursday

Angelo Vello was fined \$500 and costs by Mayor Phil Hiddelson on a charge of possession of intoxicating liquor, in court this morning. Vello was arrested on an affidavit filed by the city, stating that he had sold a bottle of liquor to J. W. Heer, special officer sworn in by the city.

He contested the case, Nate Kauffmann, Youngstown attorney, representing him, and may appeal.

Mrs. Jennie Sage, 55 Columbia st., pleaded guilty to a charge of possession, and was fined \$500 and costs.

Sam Vogelhuber, arrested for selling liquor to Heer, April 23, pleaded not guilty, and his trial was set for 9 a. m. Thursday. He furnished bond for \$1,000 and was released.

Alfred Hurrell, arrested Monday night in the wholesale raids conducted by Salem police, paid a fine of \$500 for possession and furnished \$500 bond for appearance on another charge of possession filed against him by the city.

### LEWIS OPENS HIS CAMPAIGN FOR GOVERNOR

Cleveland, May 2.—Charles H. Lewis, of Harpster, former lieutenant governor, was here today to launch his campaign for the gubernatorial nomination.

Lewis will not make any speeches during his stay in the city, it was said. He was to confer with National Committeeman Maurice Maschke and other Ohio Republican leaders before leaving for Youngstown, his next scheduled stop.

### Accuse Farmer Of Kidnapping Woman

Richmond, Ind., May 2.—Charged with violating the Mann act and kidnapping, Homer Johnson, Holly Hill farmer, was today in custody of federal authorities at Indianapolis by Sheriff Long of Wayne county, Indiana.

Johnson, it was alleged, kidnapped Mrs. Stella Cameron, 23, from her home at Hamilton, O., threatening her husband with a pistol. The warrant charged him with holding Mrs. Cameron prisoner in this city until rescued yesterday by police.

### CYCLONE HALTS NOBLE FLIGHT ON POLAR DASH

Supply Ship of Explorer  
Reaches King's Bay;  
Flyer In Germany

Stolp, Germany, May 2.—Reports of a raging storm of cyclonic proportions over northern Norway and Spitzbergen caused a last moment postponement today of the scheduled departure of the dirigible Italia on the second leg of its polar flight.

General Umberto Nobile announced the postponement after carefully examining the weather reports today. All preparations had been made for the huge airship's flight when the postponement was announced.

It was thought probable here that the dirigible would be able to leave early tomorrow. The Italia is bound for King's Bay, Spitzbergen, with a short intermediate stop at Vadsø, Norway, for refueling.

The Italia came here from Milan, Italy, after a tumultuous 30-hour battle with the elements. Nobile will use Spitzbergen as a base from which he will carry on his explorations of the polar wastes.

### POLICE ARREST 48 LAST MONTH

Forty-eight arrests were entered on the police docket during April, according to Chief of Police T. W. Thompson's report.

The arrests were made as follows: Gambling 13, possession of intoxicating liquor 10, indecent exposure, passing worthless checks two, assault four, defrauding, parking without lights, parking in front of fire plug, driving while intoxicated, interfering with officer, keeping a gambling room, not displaying two registration tags, disorderly conduct, and destroying property each one.

Arrests made by the police officers were: Ralph Stoffer, nine; Chief Thompson, three; Jesse Gray and William Reardon each one; Thompson-Stoffer-Reardon 18; Thompson-Stoffer two; Hiddelson-Reardon two; Constable Earl Ritchie had one arrest.

### Salem Quota Club Meets In Canfield

Twenty-two members of the Quota club went to Canfield Tuesday evening and had dinner at Nelson Inn. American Beauty roses were used to decorate the table.

At this time the members discussed the national convention, which will be held at Davenport, Ia. The convention is asking the clubs in this state to have Ohio night, and a decision on this request will be made later. The Salem club probably will send a delegate to this convention.

A meeting will be held in two weeks at the Elks home.

### Fords Sail Today From Southampton

London, May 2.—Mr. and Mrs. Henry Ford ended their English visit today.

They sailed secretly from Southampton on the White Star liner Majestic as "Mr. and Mrs. John Robinson." That was the name used by the Fords when they sailed from New York on the Majestic.

## OUT OF STEP

Taking the word of Mrs. Graleno G. Goodwin, past president of the Illinois Federation of Women's clubs, for it, one is led to believe that men nowadays face odds of three to 10 in securing an ideal wife when they propose marriage to the girl they have courted and log-looked up to as their ideal.

Remote be the idea of starting anything with Mrs. Goodwin, but we certainly don't believe her statement, in whole or in part.

Mrs. Goodwin has divided women into five classes, and lists them like this: Ideal type, 30 per cent; can opener type, 20 per cent; nagging type, 15 per cent; drudge type, 20 per cent; baby doll type, five per cent.

As against the 30 per cent which Mrs. Goodwin classifies in the homemaker or ideal group, there are 60 per cent listed in the remaining four classes.

In other words, using Mrs. Goodwin's figures, a man has one chance in 60 of landing a wife who will turn out to be ideal as a homemaker, the mother of his children and the guardian of the family exchequer. Quite frankly, we believe Mrs. Goodwin errs in her figures.

No one will make a boast that he numbers among his acquaintances only women who are ideal homemakers. That would be utter rashness. Yet in looking over one's acquaintances the conclusion is reached that the ideal wife outnumbers the percentage given by Mrs. Goodwin, and outnumbers it by three to one.

That is to say, the average women today is exactly the kind of a homemaker her husband desires. If he likes the can opener type, that is what he gets. If he likes the baby doll type that is his kind of a wife. And so on.

All women are not ideal cooks. All women are not perfect housekeepers. All women have faults, and so do all men. But it is the observation of the average man that the average housewife is a creature far superior to the housewives of yesterday—and getting better all the time.

This thing of women constantly knocking the modern girl—knocking her ability to keep house, to bear children, to properly raise them and to be the balance wheel for their husbands—is getting insane and senseless. Statistics prove that the girls of today make just as capable mothers and housekeepers as the girls of any other generation. In fact, the statistics give the girls of today the edge, if anything.

Mrs. Goodwin doubtless believes she knows whereof she speaks, but it is the opinion of the man in the street—and the modern woman—that she is entirely out of step with the trend of today.

## What Others Say

**UPSIDE DOWN**  
As a result of his observation of feminine styles, Bishop Collins Denn, of the Methodist Episcopal church South visualized the situation—and much else—thus: I am fully aware that the Greek women were well draped below the waist and careless above. But the women of the present day have this upside down. I don't see how they can dress as they do today with the ancient Greek attire upside down. Here is presented a very interesting theme for meditation, if not for discussion. Would it be just as true to say that the Greek ladies had "things upside down"? The bishop seems to take the Greek fashion as the norm, and to condemn our women, not for being insufficiently "draped" but for not conforming to that norm. We do not suppose that any one would think that the short-skirted dame of today is more immodest than would be the Venus de Milo if she should stalk abroad, who is "well draped below the waist," but certainly "careless above." Very careless, indeed. If there is to be "insufficient drapery," it is not a matter of great importance whether it is "below the waist" or "above." On the score of modesty there is much to be said for our "upside down" arrangement.—Indianapolis News.

**HOMAGE**  
When Lindbergh reached Paris after his epochal flight across the

Atlantic from New York his triumph was mixed with sorrow for the death of Nungesser and Gail, who had set out less than two weeks before on an attempt to cross the ocean from the east. As the crew of the Bremen reaches Washington, after the first accomplishment of the western trans-oceanic flight, the triumph for them is mingled with sorrow for the death of the internationally known American flier, Floyd Bennett, who had been stricken with pneumonia while going to their relief on Greenly Island. A homage is paid jointly to the living and dead fliers, it is impressed anew that aviation, vast as has been its progress in the past few years, still has great hazards in connection with trans-oceanic flying. Koehl, von Huenfeld and Fitzmaurice of the Bremen for a large part of their flight had a close call by death, particularly at one point when lost for hours in fog. Their machine was badly damaged when they landed on a frozen point of Labrador. Bennett who had been a co-pilot on a flight to the North Pole and who was to have gone as second in command with Byrd to the Antarctic, was taking parts to repair the Bremen when halted by the illness that ended fatally.—Pittsburgh Post-Gazette.

**CANADA AFFECTED, TOO**  
W. D. Euler, Canadian minister of national revenue, overlooks an important point when he says his government is "not concerned by rum runners using armored craft" and that "it is purely a matter for the United States to deal with." Of course, the United States does face the major problem and the major task of suppression. But rum runners as a class are deliberate, hardened criminals, and though they may at present be committing most of their crimes outside Canadian territory and Canadian waters, they are doing this only because that practice happens to be convenient, and because the conditions of their "business" call for the commission of felonies chiefly on this side of the frontier. They are not keeping within the letter of the Canadian laws—when they do so—because they have any conscience about the matter or any respect for Canadian laws, or any special tenderness for the rights and lives of Canadian citizens. And if ever they come to consider it inconvenient to obey Canadian law, and profitable to disregard it, Mr. Euler may feel certain they will give the Dominion statutes no more consideration than they do the American statutes.—Detroit Free Press.

International understanding and accord will be measurably advanced when it is generally understood that the Polish Sejm is a national legislature and not a broadcasting station.—New York Sun.

## African Tourists Watch Eagle Fight Snake In Mid-Air

Capetown, May 2.—A battle in mid-air between an eagle and a large green snake is described by a correspondent from the interior.

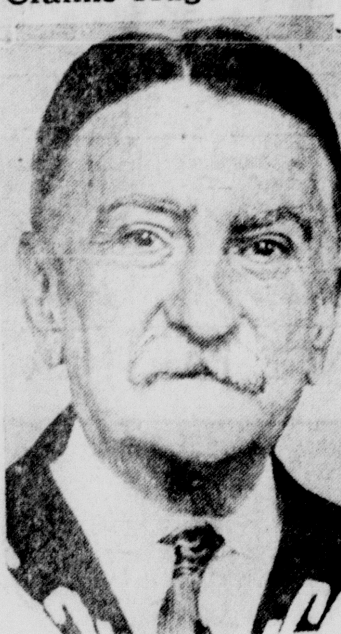

A party nearing Pemba, Northern Rhodesia, were surprised to see an eagle a hundred feet above the ground with a snake coiled around its foot.

The bird had pounced on the snake, which had shown fight and fastened itself on the bird's leg. The bird carried its enemy up, while the snake made many attempts to strike its captor.

The eagle performed remarkable contortions and eventually devoured the snake inch by inch.

Yonkers, N. Y.—Joseph Gambosi, 18, is six feet tall and weighs 325 pounds. He asked Judge Boice to protect him from his father, who he alleged swung on him with a black-iron cane. Said Judge Boice: "Papa is an invalid and when I opened the window this morning he walked me in the ribs with a cane." Judge Boice told Joseph that his father was still boss of the house and sole judge as to when windows should be opened or closed. At the same time he summoned the father.

## Claims Huge Estate

Dr. William B. Turnbull of Boston, Mass., is waiting word from Washington, D. C., to the effect that his claim to Congress for reimbursement to him and other descendants of George Washington for loss of lands which once belonged to the "Father of His Country," has been approved.

## Twenty Years Ago

(Issue of May 2, 1908)

The Boosters club organized a few days ago, is growing rapidly, according to reports.

Several more cold days of storm are predicted by the weather observer.

East Palestine's ordinance prohibiting dogs running at large is being enforced.

The strike recently declared at the McKinley mine still continues unsettled.

Much of the machinery to be installed at the Salem mine is now at the mine and is being put in shape.

The personal appearance of rural mail carriers is the subject of an order issued by the United States postoffice department.

A class of 25 candidates was initiated by the Foresters of America Friday evening. Twenty-four more applications have been received.

Between 300 and 450 letters are received daily at the White House, Washington, urging the president to run again.

Mrs. Mattie Oliver, of Columbia St., is moving her household goods to Bay City, Mich., to make her home.

Youngstown—Fruit growers near here are fearful that the entire crop was ruined by Thursday's storm.

Sebring—A movement has been started among the local storekeepers to close their places of business on Wednesday afternoon during the summer months.

Ten friends of Miss Clara Stewart surprised her at her home Friday evening to celebrate her birthday anniversary.

The funeral for Raymond Kaiser was held Saturday morning at St. Paul's Catholic church.

Albert Hayes, this city, has been appointed a member of the blind relief commission of the county.

## The Stars Say—For Thursday, May 3.

By Genevieve Kemble

ACCORDING to the peculiar influence of some of the planets active on this day, the fortunes may be fluctuating and carry with them singular experiences or contacts. This latter in its application to social, artistic or feminine affections. In making new agreements care is enjoined, and there is some hazard in attempting matters speculative or not on established basis.

Those whose birthday it may expect an interesting year, but one of variable fortunes and singular experiences. It would be well to fortify against extravagance and peculiar alliances, especially in relation to social, artistic, romantic and domestic affairs. New ventures may be taken under consideration, but with precaution.

A child born on this day should be adventurous, talented, popular and inclined to social pleasures on which it may squander its substance, which may prove to its detriment, unless frugality and prudence be instilled in its youth.

Everywhere in life, the true quest is not what we gain but what we do.—Carlyle.

## SEARCH RIVER FOR BODY OF OHIO STUDENT

Hanover, N. H., May 2.—After nearly 300 police, citizens and Dartmouth college students had searched both shores of the Connecticut river, the body of John Rust, of East Cleveland, Ohio, a sophomore, was still unrecovered today. He was believed to have been drowned when a canoe in which he and a companion were riding overturned.

Wayne Bryer, of Peterboro, N. H., a fraternity brother of Rust, and a companion in the canoe, brought word of the accident. He fell unconscious after he told his story.

Bryer said he had much difficulty in reaching the shore after the canoe overturned that he did not pay much attention to Rust, who was a good swimmer.

The sculptor is M. Landowski.

# The Fashions Are Found At Spring-Holzwarth's

## What Spring Frocks Owe Their Charm to

The frocks that are leaders for spring are delightfully soft and feminine looking—that is why you'll like them. Plaids and tiers and rippled sections have their way and the chosen colors are light-hearted ones. There is youthfulness for everyone!

## Coats Are Interesting In More Ways Than One

One would have to see this whole collection to appreciate what great style diversity there is in coats for spring. Flowing capes and scarf collars are of outstanding importance.

## The Trim Tailored Suit Will Be Chosen Frequently

—and not only because a nicely tailored costume is a joy to a woman in any walk of life—but because the tailored suits of this spring are so handsome and becoming.

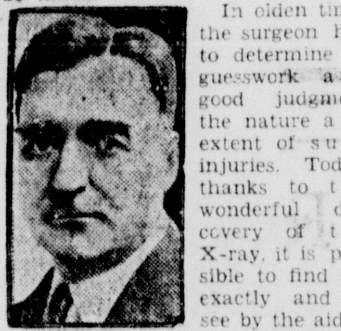

# The Spring-Holzwarth Company

## NO MORE GUESSING ON BODILY HURTS

By Royal S. Copeland, M. D., United States Senator from New York, Former Commissioner of Health, New York City

In all injuries, such as sprains and after any accident where there is damage to a joint, or in any case where it is possible a bone has been fractured, an X-ray picture should be taken.

DR. ROYAL S. COPELAND

In sudden times the surgeon had to determine by guesswork and good judgment the nature and extent of such injuries. Today, thanks to the wonderful discovery of the X-ray, it is possible to find out exactly and to see by the aid of the X-rays what has happened. This addition to medical equipment has materially simplified the work of the surgeon in many fields. In accidents, particularly, it is necessary, nowadays, to make use of the X-ray machine.

There is no doubt that before the discovery of the X-rays many a sprain was treated as a broken bone. Lots of persons were splints for weeks and had all the discomforts of the classical treatment for fractured bones, when it was a simple strain or sprain that did not demand such radical and long-continued treatment.

It is very probable, too, that many a slight fracture, perhaps where a corner or splinter of bone was broken off, was overlooked and treated as a sprain. Perhaps no greater harm resulted but, nevertheless, it is disturbing to think something important was made light of or treated for the wrong thing.

All these old-time mistakes, quite

excusable under old-time conditions, are uncalled for now. Every community, no matter how remote, has its X-ray equipment. Unless there is prompt response to treatment, what was thought to be a strain or a sprain is probably a condition more important than was suspected at first. It must be given further study.

This is the point where the X-ray operator enters. The magic of his skill will soon determine the real condition. All the hidden things are revealed and it will be determined exactly what is wrong.

Too frequently in human experience what is thought to be a trifling thing may be far reaching in its effects. I do not believe in being fussy about things or over anxious but sprains and joint injuries are always worth careful consideration. Every dispensary worthy of the name is equipped with the X-ray and, if you are poor, will gladly examine your case without charge. Your doctor, if he has not the equipment in his own office, will send you to some specialist in this line.

Early treatment is the important consideration in sprains and strains, as it is in every sort of injury to the human body. Do not neglect a thing of this kind. The immediate aid of your doctor may spare you months and even years of trouble.

Answers to Health Queries  
T. Y. Q.—I have small holes in my tonsils and hard yellow substances forming in them. They were

removed when I was 12 and I am now 30, they seem to have grown in again. What would you advise?  
A.—The holes are called pockets. The secretions are retained in them. Have the throat examined and be guided by your doctor's judgment as to whether or not the tonsils should be removed. If they are diseased, they should be taken out.

M. F. Q.—What causes varicose veins?

A.—Varicose veins are caused by increased tension in the veins, due to either constant external pressure, some obstruction of the deep veins, or, as in many cases, to habitual over-exertion, such as long standing. For full details send a self-addressed, stamped envelope and repeat your question.

## NULLIFY STATIC ON RADIO WITH NEW INVENTION

Lack of Wave Length Is Utilized by San Diego Man for Any Set

San Diego, Calif., May 2.—Static, the fly in the ointment of the world's radio, has been conquered! A static nullifier has been invented that is guaranteed to forever banish the squeal, gurgles, blares and crashes which are wont to emanate from your loud speaker at just the time you are extolling the set's virtues to your friends. The invention is revolutionary in principle. It is not merely a new form of "trap" with which the industry is thoroughly familiar, but instead is based on an entirely new method, utilizing the lack of wave length in static charges.

**Idea Is Born**  
Jean Harold Clark, of San Diego, is the inventor. Ten years ago an idea came to him that static, which the scientists define as "natural electricity in the ether," or "atmospherics," might be eliminated by means of a device calculated to take advantage of that peculiar property within itself by which it disturbs the ether "all over the scale," and therefore either has no wave length or every wave length.

Today he announced the practical workability of his invention, and submitted it to two local radio engineers. After thorough investigation, the experts declared the device foolproof and efficient. Clark has applied for patent rights.

"The device, which can be attached to any set, enables the operator to bring in far distant stations almost as clear and static-free as though there were local stations," said Prof. Wallace A. Gilkey, radio and electrical technician of San Diego State college.

"The static charges which enter the set are sent through a process which tends to neutralize them without in any way, reducing the volume of the desired signals, from the distant transmitter."

**A Modulator**  
"The 'static modulator,' as the inventor calls his device, practically eradicates everything that is undesirable from the total pick up of the aerial. Lightning, power line leaks, trolley car sputters, electric light transformers and distributors, the starting and stopping of motors and dynamos and the countless other radio disturbances incident to the mechanical and electrical industries, the existence of which were unknown before the advent of radio, are alike diminished to practically nothing by the device."

In a demonstration test, distant stations were tuned in on various sets not equipped with the modulator.

While the desire was all that could be desired, the music was not pleasing to the ear because of the great amount of static always is gathered up when bringing in DX. However, with the cutting in of Clark's device the static crashes were decreased by 40 per cent, leaving the music clear and strong.

## CHICAGO NEGRO ENTERS RACE FOR CONGRESS

Chicago, May 2.—Oscar Depriest, Chicago's first negro alderman, has been selected as the Republican candidate for congress from the First Illinois district to succeed the late Congressman Martin B. Madden.

Depriest is committeeman and Third ward leader in the political organization headed by Mayor William Hale Thompson. His selection as nominee for congress was believed dictated by Mayor Thompson, although five first district committeemen, including Depriest, voted unanimously to put the negro's name on the ballot.

It is elected in November. Depriest will be the first negro congressman from Illinois, and the first to represent any state in 26 years.

## NORTH BENTON

Members of the Missionary society of the Presbyterian church presented the drama, "Mammy's Lil' Wild Irish Rose," to a full house at the country club Thursday and Saturday nights of last week.

The play was well given and the scenery which was painted by Prof. Miller added much to its success. Miss Beight, a Civil war veteran and who has celebrated his ninety-third birthday, gave two violin selections, which were appreciated by the audience.

Miss Helen Hughes of Pelland visited over the week end with friends and relatives here.

Miss Mary Van Camp of Deerfield has returned home after spending some time at the home of H. G. Hammond. Mr. Hammond's many friends are glad to know he is improving from the effects of his accident.

Mrs. Gertrude Hartzell is visiting Mr. and Mrs. Arthur Lane in Youngstown.

Mrs. Sarah Malmesbury has returned from Alliance City hospital much improved after her recent operation.

Allen Lightner is building a new garage.

Edwin Stanley is driving a new Auburn sport sedan.

Miss Dora Henry entertained friends from Mt. Union college Thursday evening.

F. Schenk and P. E. Imobersteg, our prosperous millers, are having electric engines installed in their mill.

The grading on the diagonal road is proceeding rapidly. When this strip is completed it will be only a short drive into Salem.

## COURT NEWS

### Accuses Husband

Grace C. Carpenter through her counsel Foulks & Stevenson of East Liverpool has filed her petition for divorce in common pleas court against her husband Edwin A. Carpenter, a truck driver for the Riggs Grocery Co. at East Liverpool.

The plaintiff declares in her petition that the defendant left her March 27 last and on April 28 inserted an advertisement in a newspaper that he would not be responsible for any debts contracted by his wife, also that she never contracted any debts that he did not pay. Carpenter is charged with gross neglect of duty and also extreme cruelty.

They were married at Lisbon June 28, 1924, and no children are of issue.

### Wants An Accounting

Charles O. Emmons, through his counsel, G. Jay Clark of East Liverpool has filed a petition in common pleas against R. M. Henry and Katherine Henry for an accounting. The defendants reside on R. F. D. No. 1, Bayard.

On March 28, 1927, the plaintiff entered into an agreement with the defendants to operate a truck farm, but no part of the agreement has been carried out by the defendants. Aug. 20 last year the defendants ordered the plaintiff from the farm and cancelled the gardening agreement, and then took possession of the farm.

### Husband Wants Decree

Charging his wife with gross neglect of duty, Coyt Gross has filed a divorce petition in common pleas against his wife, Bertie Gross, whom he believes is residing at Fordwick, Va. They were married at New Cumberland, W. Va., May 1224 and one child is of issue. The defendant left her husband in October 1925 and has been absent ever since.

### Defendant Pays

In the mandamus action recently filed in common pleas court by the State of Ohio on relation of the Reporter Printing Co., of Leetonia, against Elmer E. Walker as county auditor, Judge William Crow has dismissed the case at the costs of the defendant because of the defendant not desiring to proceed fur-

ther. The petition was filed for the purpose of obtaining a court order compelling the county to publish the annual report of the county auditor in two newspapers.

### Judgement For \$2,488

The foreclosure of a mortgage and an order of sale has been entered in the case of the Firestone bank of Lisbon against Laura E. Temple. The court has handed down a judgement for \$2,488 in favor of the plaintiff in this case.

### Sues Auto Owner

Eugene L. Leipper, aged 26 years, residing at 165 South Union street, Salem, has filed a \$5,000 damage suit against Louis Shilling, residing on the Salem-Lisbon road near Salem.

The plaintiff declares that as a result of an automobile wreck at 9:10 o'clock the night of Oct. 19, last, he was so injured that he has not yet recovered. The petition declares the car which struck him was owned by Shilling, but was at the time being driven by a son of the defendant.

### Verdict For Defendant

A jury in common pleas No. 2 has returned a verdict for the defendants in the \$15,000 personal injury case filed by H. D. Mays against John C. Thompson and others of East Liverpool.

Mays sued to recover damages for injuries he received when he was struck by an awning which was blown from the Thompson building at Sixth and the Diamond, East Liverpool June 28, 1924, during a severe storm and the same night as the "Lorain disaster." The case was tried before Judge William Crow for two days.

## Hysterical Women Blamed for Falls Of Prince of Wales

London, May 2.—Hysterical women who crowd round the jumps at point-to-point meetings at which the Prince of Wales rides are blamed for many of his recent falls.

"The thoughtless and unsporting manner in which these women utter shrill cries of welcome when the prince is about to take a jump are the chief cause of his recent falls," said a member of a prominent hunt committee.

"Horses are easily frightened, and it is astonishing that the prince is able to manage his mounts so well in the circumstances."

New York—The youngest colonel in the country was one of the who officially greeted the trans-Atlantic flyers at City Hall recently. Robert E. Lee IV, four years old, was present as a member of the mayor's staff in a uniform copied from that of his famous forebear, the Confederate general.

## TEXAS MOTHER HEADS PARENTS

Parent-Teacher Congress Doesn't Go On Record On Prohibition

Cleveland, May 2.—Mrs. S. M. N. Marrs of Austin, Texas, has been elected president of the National Parent-Teacher Association to succeed Mrs. Margaretta Reeve Philadelphia, who retires following the annual convention now being held here.

Mrs. Marrs, who was president of the Texas Congress of Parents and Teachers for several years, plans to stay in Cleveland to serve as one of the chairmen of the Educational Section of the American Peace Society, which opens its centennial celebration, May 7.

Other national officers elected by the congress were:

First vice president: Mrs. E. C. Masen, Massachusetts; second vice president, Dr. J. L. Butterworth, New York; third vice president, Mrs. Hugh Bradford, California; fourth vice president, in charge of public welfare, Mrs. A. H. Reeve, Pennsylvania; fifth vice president, Dr. Ralph J. Condon, Cincinnati, O.; sixth vice president, Mrs. H. F. Chaffee, North Dakota; seventh vice president, Mrs. B. C. Jones, Georgia; corresponding secretary, Mrs. Harry Semones, Virginia, recording secretary, Mrs. E. E. Bollinger, Arizona; treasurer, Mrs. J. B. Elliott, Oregon; historian, Mrs. J. L. Hayes, Colorado.

That the congress would not be opened for consideration of the day's controversial problems, was in-

dictated Tuesday when Mrs. Reeve signed a proposal submitted by Mrs. Elizabeth Tilton, Cambridge, Mass., chairman of the legislative committee, that delegates go on record as endorsing enforcement of the prohibition law.

Elyria, O.—Judge W. B. Thompson recently in less than three hours disposed of 41 cases. Thirteen of the cases were arraignments of the men indicated by the grand jury, eight were divorce or alimony judgments, three were arraignments on liquor charges and the rest were judgments in equity cases.

## OIL COMMITTEES TO LAUNCH NEW LEASE INQUIRY

History of Continental Trading Co. Is Matter Of Public Record

Washington, May 2.—The history of the mysterious Continental Trading company and the division of its \$3,080,000 Liberty Bond "slush fund" was a matter of public record today as the senate oil committee prepared to close its bond inquiry and launch a new investigation into the Salt Creek (Wyoming) oil field leases.

The senate inquiry has revealed that Harry P. Sinclair, Robert W. Stewart, James E. O'Neill and Henry M. Blackmer shared almost equally in the distribution of Continental bonds. Their shares were Sinclair, \$757,000; Stewart, \$759,500; O'Neill, \$737,900; Blackmer, \$763,000. The remainder of the \$3,080,000—or \$61,600—went to Henry Smith Osler, president of the Continental and its "paymaster."

Sinclair revealed in his testimony that he was very liberal with his share of the Continental bonds. He told of giving \$233,000 to former Secretary of the Interior Albert B. Fall in a ranch deal; \$260,000 to the Republican National committee, of which \$100,000 was later repaid, and of "lending \$100,000 personally to Will H. Hays, former Republican National chairman, now movie czar. All these transactions were in Continental bonds, the committee revealed, although Sinclair said he didn't know it at the time, because he had so many bonds.

## LINDBERGH NOT TO CROSS OCEAN

Flight Wouldn't Advance Aviation He Says In Denying Rumor

Washington, May 2.—Colonel Charles A. Lindbergh isn't planning any more trans-Atlantic flights to Europe.

The pioneer ocean flyer made that plain today in denying the latest story emanating from the Washington rumor factory that he had completed plans for such a flight this summer with stops at Greenland and Iceland.

Maj. Thomas G. Lamphier, of the army air service, who was mentioned as his co-pilot in such an undertaking, issued a similar denial. "Such a flight would add nothing to the advancement of aviation," said Lindbergh.

He said he still hoped to return to Europe "some day" and see the things he missed in his absence, but the government ordered his immediate return to the United States, but he has made no definite plans.

## Rebuked For Late Hours, Kills Self

St. Louis, May 2.—Rebuked by his wife because he failed to return home until 3:30 this morning, Foster Fordyce, former Pittsburgh clothier, shot and killed himself in an apartment here today, police reported.

Fordyce left Pittsburgh about five weeks ago, after selling out his business there.

## Welcome 15 Members To State Pen Ranks

Columbus, May 2.—Inmates at the Ohio State penitentiary here yesterday celebrated "May Day" by welcoming 15 new members into their midst. It was made known at the institution today.

All were received to serve minor sentences, it was said.

## MORE STREETS

(Continued from Page 1)

Perry st. at once City Engineer F. S. Barckhoff advises residents. If the street is torn up after the paving is laid, for the purpose of making such connections, the permit will cost approximately \$20.

**Sidewalk Resolutions**  
Council passed 25 sidewalk resolutions, ordering property owners to relay or repair sidewalks within 15 days. Where such work is not done, the city will go ahead and make the improvement, assessing the cost against the property. The bulk of the resolutions, however, had been petitioned for, so there residents plan to lay their own walks at once.

Delay in the construction of the new white lighting system was explained by Service Director Cavanaugh. He stated that equipment was slow in arriving from Lafayette Ind. and that it is now here. Work will now proceed at a faster pace.

The request of the board of education for the vacation of the alley east of Reilly athletic field was referred to the streets committee. A petition bearing the names of adjacent property owners was received showing that they are favorable to such a vacating order.

Legislation effecting a settlement of \$200 with Michael Media in his suit against the city for damages as a result of a fall on Roosevelt ave. was passed. The property owner is paying the balance of the settlement in the case.

President H. A. Gager made several changes in the personnel of the committees. W. U. Filler was named chairman of the ordinance committee, and P. J. Dean was added to the committee. Filler had been acting chairman.

George Slocum, who succeeded J. E. McNeelan, was named to the latter's places on the water and ordinance committees, and was named chairman of the rules committee. Filler was excused from service on the latter committee.

Persons who want anything know that The News is the Want Medium in this vicinity. So read it.

## The Cape Coat Is Definitely Established

The Spring Mode Stressing Femininity Shows Novel Uses of the Cape Which Gives Lovely Lines to the Newer Models

IN mentioning coats that help to make feminine the mode for spring, it would be impossible to forget the cape coat. There is no innovation more interesting or popular than the spring coat of simple lines that features the addition of a graceful cape or swinging scarf which gives the effect of a cape.

Many of the new capes have cape sleeves, circular capes swinging from the shoulder, tiered cape effects at the back, long, dashing swinging capes and other novel effects that distinguish the newer coats. Often the cape starts a little lower than the collar and swings from a yoke, or it may merely give the suggestion of a cape by the cut of the sleeves. The treatment of the coat which actually wears a cape or gives the appearance of a cape is so ingenious that it gives infinite variety to the mode.

The feminine motif in styles is no doubt responsible for the popularity of the cape. The general trend is towards a softer line and the cape gives this new silhouette most successfully. The cape is perhaps the outstanding feature of a feminized silhouette. Coats, wraps and street dresses all use the cape effect and with undoubtedly smart results. Capes may be used without giving a monotonous appearance, as they may be worn long, short, small and large, and in adaptations which merely give the suggestion of a cape.

Capas, by the way, are worn by themselves as frequently as on the coat itself. They create a smart ensemble appearance when worn with a one-piece dress or a two-piece model. They are very effective in the sports ensembles. Capes of course do not necessarily confine themselves to ensemble effects but are apt to be worn alone—particularly in the evening as a wrap.

Capas do not only lend themselves successfully to the treatment of the formal where they are noted for the grace they bring, but are used even on the tailcoats.

Coats in general are most varied this season. They are seen both with and without fur. Collars, sleeves, waist and necks are all matters of importance in the spring coat and each receives a variety of treatment.

Frances Hamilton, who, in First National's "The Yellow Lily" wears some interesting street ensembles, is seen in the pictured coat which so smartly features a cape.

## Man Arrested Here For Stealing Hides

C. R. Smith, of Cleveland was arrested this morning on an affidavit filed by W. L. Fulls, of Salem, charging him with stealing hides from his market on Broadway.

Fulls alleges that Smith drove to the rear of his store to deliver some goods, saw the hides, and stole them. He also alleges that Smith sold them in Canton and left today to identify the hides.

Smith's trial will be held in Mayor Hiddleston's court Thursday morning.

## AL SMITH

(Continued from Page 1)

was not merely the acquisition of this much arithmetical strength that most impressed the governor's supporters today. What they did not most heavily upon was the decisive repudiation of the theory persistently emphasized by the opposition that "Smith has no appeal in the west."

Senator Walsh (D) of Montana, an avowed dry, and backed by McAdoo in the California contest, finished a poor third to Smith and a poor second to Senator Reed of Missouri.

This, the Smith supporters declared today, is the answer to the oft-advanced contention of the opposition that "the dry Democracy of the west will never accept Smith."

The governor even carried southern California, which is the stronghold of the dry sentiment.

Walsh was entered in Wisconsin, and lost to Smith and Reed. He has now lost again in California.

**Reed Still in Picture**  
Reed is still in the picture. At least he has a total of some 64 delegates, scattered through half a dozen states.

Smith's present 508 delegates are scattered from Maine to California, and from the Canadian border to the gulf, which is another point that his friends dwell upon to show the universal nature of his strength.

## WEDDING PARTY ENDS IN CRASH; ONE MAN DEAD

Toledo, May 2.—One person was dead today and another seriously injured after a gay wedding party ended in a triple automobile accident here yesterday.

Jesse W. Cochran, 55, a member of the wedding party, died early today from a fractured skull and Irene Krompack, 17, was lying in a hospital with internal injuries and cuts as a result of the crash.

Mr. and Mrs. Mike Daniels, the bride and groom, were slightly injured while four other persons in the car were cut and bruised.

Two cars, laden with members of the wedding party enroute to a photographers, participated in the crash when the car driven by Dan Szekeres, 22, crashed into a car driven by deputy customs inspectors.

## Mrs. Laura Garside Accorded Birthday Anniversary Honor

Mrs. Laura Garside, who has been active in W. C. T. U. work for many years, was honored at a meeting of the W. C. T. U. Tuesday afternoon at the home of Mrs. Robert Clark, East High st. at which time her 70th birthday anniversary was celebrated. She received a number of gifts.

Mrs. Garside was president of the Winona union for 11 years and the Salem union for nine years. She had a perfect attendance for 23 years up until about a month ago.

She has held 108 oratorical contests in the county, three of them diamond. Refreshments were served by Mrs. Clark, Mrs. Bruder and Mrs. Jennie Woodward, and there was a cake for the honoree with 70 candles on.

Mrs. Anna Ramsey had the decorations and Miss Ava Barnes read a paper on "Temperance."

In observance of Mother's day a tribute was given to American motherhood by different members. Mrs. J. B. Zeigler gave a fine talk on "Motherhood."

Miss Laura Schilling gave an interesting paper relating to the history of the W. C. T. U. in Salem. The local union was organized at the First Friends church, then called "the home of prohibition."

The Columbiana county union was organized in Salem and the state convention was held here in 1902. Salem has had six county conventions since 1890.

It was decided to hold the union meetings once a month rather than every two weeks. Mrs. Anna Ramsey had the decorations.

## Surprise Miss Fawcett

Members of the Trimble class of the Presbyterian church and a few invited guests carried out a surprise for Miss Melissa Fawcett Tuesday evening at the home of Mr. and Mrs. O. P. Ashead, Ellsworth rd. and presented her an electric table lamp. Miss Fawcett went to Alliance Wednesday to make her home.

Music, games and coffee were the pleasures of the evening and a lunch was served. Mrs. Smith, of near Philadelphia, was an out-of-town guest.

## Marriage Licenses

A marriage license has been issued to Norman Kreefer of East Liverpool and Miss Ruth Robinson, daughter of Mr. and Mrs. Coleman Robinson, also of East Liverpool. They are to be married by the Rev. McCandless.

Robert Dutcher of Rogers and Charlotte Yeager of New Waterford, went to Wellsburg, W. Va., were granted a marriage license, and were married there.

## Passes 52nd Milestone

Wednesday marked the 52nd milestone in the wedded life of Mr. and Mrs. J. T. Smith, East High st. They had no special celebration of the day.

Mr. and Mrs. Smith are in fair health for their advanced years. Mr. Smith is engaged in road work for the county and worked at Nesley today.

## Benefit Party

About 50 people attended the benefit card party given by the Gold Star auxiliary Tuesday evening at the hall.

Four prizes were offered in the games. The winners were: Mrs. Nicholas Rider, Joseph Marber, Mrs. Howell and Roy McLaughlin. The next party will be on May 15.

Kathleen McLaughlin has returned to her home in Sharon, Pa., after spending a few days with friends and relatives in Salem.

## Markets

### OILS IRREGULAR

New York, May 2.—With the exception of the oil the stock market was steady at the opening today. The industrial favorites and motor shares were well in the advance, of the former group Radio Corporation advancing 2½ points to 132, American Can 87, up ½, Consolidated Gas of New York 165½, up 1½, and Corn Products 79, up ¾. General Motors gained ¼ to 190½ and Mack Trucks rose a full point to 89. Others of that class generally were higher by a fraction. The oil were somewhat irregular, with those on the slightly higher side including Marland Oil at 42½, Sinclair Oil at 29, Shell Union Oil at 37 and Texas Corporation at 64½. Mexican Seaboard at 33½, Atlantic Refining at 136 and Standard Oil of New York at 39½, were all down slightly.

Speculative activity in the early trading today shifted from the oil and motor stocks to the low priced rails, the utilities and the New York City freights. Chicago and Alton common and preferred continued their spectacular upward movement, on reports of heavy acquisition of the stock by the Pennsylvania railroad interests. At 11½ the common stock showed a gain of 5 points in the first half hour and sold at double yesterday's low price.

Radio staged a new advance on the strength of General Harbord's favorable statement on prospective dividends for the holders of the common stock. General Motors, American Smelting, Mack Trucks, Southern Railway and other speculative favorites gained momentum in the upward direction as the session advanced, adding a point or more to their opening gains of from one to two points. Victor Talking Machine sold in good volume around 98, and International Combustion inaugurated a new advance in active trading.

Business and industrial reports were unchanged in general tenor from those of the last week or so. A slight gain in weekly conditions, but first quarterly reports from the representative manufacturing corporations do not compare very favorably with the same period last year, the call loan rate was unchanged at 5½ per cent, with funds freely offered.

The motor and industrial stocks joined the forward move in the second hour. General Motors moved up 3 points to 191½. Radio was up 5½ and American Smelting up 3. Standard Oil of New Jersey declined to 45½, but Standard of New York retained the bulk of its recent gains. Copper stocks were strong in this period.

### CHICAGO LIVE STOCK

Chicago, May 2.—Hogs—Receipts 18,000; market 10c-15c lower. ## BARON ATTENDS CHURCH ALONE

Baron Von Huenfeldt reads his prayer book in St. Peter's Lutheran Church at New York where he attended services yesterday morning.

## BISHOP FACING FORMAL CHARGE

Pittsburgh Man Accused At Methodist General Conference

Kansas City, Mo., May 2.—Bishop Francis J. McConnell of the Pittsburgh area has been formally charged with immorality and with maladministration it was revealed at the general conference of the Methodist Episcopal church today in quadrennial session here. The maladministration charges are in connection with two cases submitted to the annual Pennsylvania area conference last year, and the charge of immorality is based on Bishop McConnell's alleged endorsement of the theory of evolution published by the American Civil Liberties union in January, 1927. The charges were filed by Rev. George A. Cooks of Wilmington, Del., and Louisville, Pa.

The immorality charge deals entirely with violations of the church dogma and doctrines, and contains no element of moral turpitude.

## House of Lords In Film to be Shown For the First Time

London, May 2.—The interior of the House of Lords is to be shown for the first time on the screen in a production by the British Lion Film Corporation, Ltd.

Special permission had to be obtained even to take a photograph inside the Upper Chamber, and an exact replica has been reconstructed in the producers' studio at Islington. The ancient ceremony of the initiation of a peer to his seat will be followed exactly, and the scene presented will be complete with lord chancellor on the Woolsack and Garter King-at-arms.

The interior of the House of Commons has already been shown in a film.

## Federal Grand Jury Gets Liquor Cases

Cleveland, May 2.—Liquor and narcotic cases were to occupy attention of the new federal grand jury which convened here today. More than 40 cases are to be considered including the Ohio-Pennsylvania beer "trust" group; Canton, O., and other narcotic rings and a Cleveland auto theft probe.

The grand jury will be in session for a month, it was predicted.

## Van Orman Defends Balloon Race Title

Akron, May 2.—Wade Van Orman and W. T. Morton will defend their national balloon racing championship in Pittsburgh, May 30. The Goodyear company announced today that the two veteran balloonists will pilot its entry in the national race. Van Orman won the international race in 1926.

## Grade Elimination Approved By State

Columbus, May 2.—The elimination of the grade crossings on State Route No. 93, in the village of Kenmore in Summit county where the road crosses the tracks of the Pennsylvania, the Baltimore & Ohio, and the Erie railroads, was declared necessary and expedient by State Director of Highways George F. Schlesinger, today.

## Mrs. Knapp's Trial Is Started Today

Albany, N. Y., May 2.—After a 24-hour delay due to the disappearance of the prosecution's star witness, the trial of Mrs. Florence E. S. Knapp, former secretary of state, who is charged with stealing a \$2,875 census check, formally got under way at 10 o'clock today before Supreme Court Justice Stephen Callaghan.

NEW GAY COLORS

for your porch furniture

In one easy afternoon—with Duco

Keep youth longer!

cleanse the system of poisons

Two of the great enemies to youth and vitality are delayed elimination and intestinal poisons. To keep yourself free from both these common difficulties will help you to stay young.

With the use of Nujol you can do it too. For Nujol absorbs body poisons and carries them off, preventing their absorption by the body. Nujol also softens the waste matter and brings about normal evacuation. It is harmless; contains no drugs or medicine. It won't cause gas or griping pains, or affect the stomach or kidneys. Every corner druggist has Nujol. Make sure you get the genuine. Look for the Nujol bottle with the label on the back that you can read right through the bottle. Don't delay, get Nujol today.

YOUR porch will be the most popular place in the house in the coming summer months—get it ready now. Give the wicker chairs, the porch swing, and other furniture the benefit of bright, enduring Duco colors.

Your porch furniture can be made to look like new—and you can do it in a single afternoon. Come in and let us show you how wicker can easily and

quickly be given vivid, attractive color—with a hand-sprayer and Duco. It's easy to apply, even if you have never done any painting before. And every article you do in the afternoon will be dry before dinner time! In the range of Duco colors there are many cheery, summery shades and tints especially suitable for porch furniture. Let us help you get started—today.

## "SHANGHAI BOUND"

Free as a bird is flourishing today, just as it did in the days of the Spanish Main.

It furnishes the basic theme of Richard Dix's new Paramount starring picture "Shanghai Bound," which comes to the State tonight. Chinese river pirates are attacking ships today as they have for centuries. The only difference is that they have improved their methods. Organized bands of marine marauders operate up and down the Yangtze river from Shanghai, stripping luckless vessels they capture. They even attack ocean-going steamers.

Authority for these statements is Edward S. (Tex) O'Reilly, former member of the International Police Force at Shanghai and later drill-master for the Chinese Imperial army. Observations along the Yangtze river over a period of three years were set down recently by O'Reilly and offered to Paramount. His story "Shanghai Bound" was shaped up at once as a Richard Dix starring vehicle. It has proved ideal material, according to critics.

Dix plays a captain of a Yangtze river steamer in the picture, and his efforts to take a cargo of American refugees down the river to Shanghai and safety form the skeleton of the plot. River pirates, spurred on by hunger, greed and revenge, are the obstacles in his path, and he overcomes them only after hard fighting all the way down.

Mary Brian is the American girl Dix saves. Jocelyn Lee, Charles Bix, George Irving, Arthur Hoyt, Tow Maguire, Frank Chew and Tetsu Komai appear in other important roles. More than 150 Chinese appear in the fight scenes. Luther Reed directed.

### "BEAU GESTE"

Gay, young, courageous "Beau" and his brothers brought smiles, romance, thrills and a few tears to an audience that saw the second showing of Percival Wren's driving, gripping novel at the Grand yesterday.

"Beau Geste" is worth the fortune

Paramount poured into it filming. It is worth the months spent by Herbert Brenon and two thousand men among the scorched sand dunes of the Great American Desert.

This story of the French Foreign Legion hinges on the wonderful devotion of three young Englishmen, each of whom decamps from home in order that the blame for the theft of a famous sapphire may fall on him although he believes one of his brothers to be guilty.

By common impulse all enlist in the Foreign Legion. Two find themselves at an isolated Sahara fort which must meet an Arab attack with only 40 defenders. The sheer fearlessness of these wonderful soldiers in their pitifully brave defense adds to the drama of the story.

Ronald Colman as "Beau" gives a portrayal which many are sure to place above his wonderful work in "The White Sister," the picture that started him toward the commanding place in the screen world he now holds.

Rivaling Colman are Neil Hamilton and Ralph Forbes, the other two brothers. A magnificent character is brought to life by Noah Beery as "the cruellest man and bravest soldier" in the Legion.

## HARVESTER AMONG YEARS' WORTH WHILE FILMS

Gene Stratton-Porter's Famous Novel Makes a Powerful Picture

A simple love tale, simply told, and all the more powerful because of its very simplicity, is "The Harvester," the screen adaptation of Gene Stratton-Porter's widely read novel, which opens an engagement tonight and tomorrow at the Royal Theater.

Seldom, indeed, are theatergoers afforded an opportunity of seeing a motion picture which is so pleasingly unfolded, and against backgrounds so filled with natural beauty. Particularly in respect to the scenic investiture of the production, "The Harvester" achieves the distinction of showing us something which is entirely new.

Since the story of the novel is laid at the famous Lumberport Cabin of the late Mrs. Porter, and since Director Leo Meehan is also her son-in-law, he transported his entire company to the Lumberport estate in Indiana, and photographed the exterior scenes in that location.

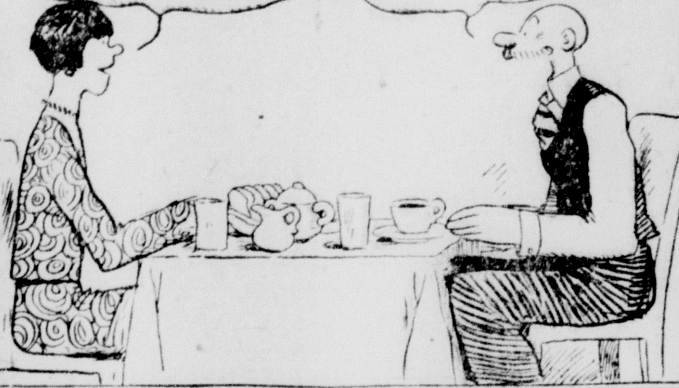

In the title role of the "Harvester" Orville Caldwell, a strapping young giant with a most engaging personality, delivers a performance that at once places him in the front rank of leading men. No less may be said of Natalie Kingston, a beautiful young girl whose elevation to prominence on the screen has been swift and sure.

Altogether you will find this picture to be among those which are decidedly worthwhile.—Adv.

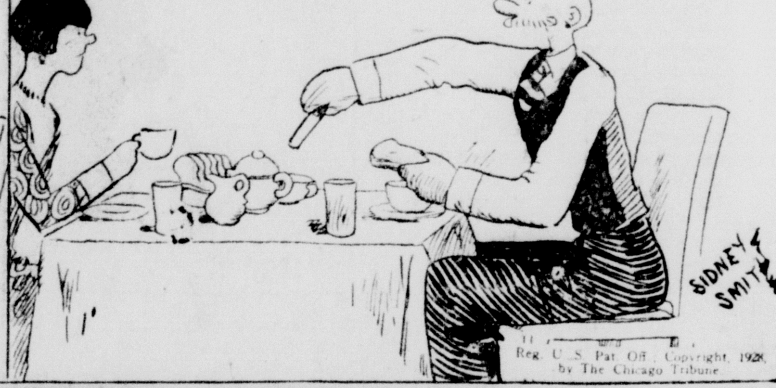

WELL, I'M RELIEVED TO KNOW THAT WE HAVE SOME REAL NEIGHBORS NEXT DOOR— HE IS A COMMISSION MERCHANT— HIS NAME IS JEREMIAH GOLD— THEY MUST BE WELL FIXED— THEIR FURNITURE IS VERY EXPENSIVE! THEY HAVE ONE ORIENTAL RUG THAT MUST HAVE COST A THOUSAND DOLLARS—

THEY HAVE A DOG— AND A CAT— AND THE CUTEST LITTLE CANARY— MRS. GOLD IS A REAL SWEET WOMAN— AND THEY HAVE TWO LOVELY GIRLS— THE YOUNGEST HAS A FINE POSITION IN AN OFFICE DOWN TOWN—

HEY! WHO ARE YOU— SHERLOCK HOLMES? THE PEOPLE HAVEN'T HAD TIME TO UNPACK— AND YOU KNOW THEIR HISTORY FROM THE CRADLE TO THE GRAVE— WHERE DID YOU GET ALL YOUR INFORMATION?

## THE HOME KITCHEN

By Jeannette Young Norton

### Fish Dishes of Distinctive Flavor

Fish from sea, lake, river or of the trusty can, are excellent if properly prepared. When fish are served in the average family there must be a dependable meal hour to be sure that the fish can be served at its best as soon as it is cooked. Suppose we treat ourselves to a fish dinner, then tell how the dishes are made.

#### MENU

Stuffed Shrimp Canape  
Olives Celery Radishes  
Scallops a la Jeannette Salted Nuts  
Stuffed Baked Fish Fried Cucumbers  
Potato Balls  
Peas Mint Jelly Rolls  
Lobster Salad Cheese Straws

Have any large local white fish prepared for baking, leave the head on after cleaning, but remove the eyes. Wash, dry and trim the fins from the fish with sharp shears. Rub over the entire fish with a buttered cloth or paper. Make a savory stuffing of fine crumbs, grated onion, chopped celery and pepper, a little dried mint crumbs, pepper, salt, a quarter teaspoonful of sugar, a tablespoonful of soft butter, a beaten egg to moisten. Mix well and stuff the fish three-quarters full only so it will not burst, sew up the vent, fill the head so there will be enough stuffing to go around. Put the fish on a greased rack in the baking pan and baste with the juice of half a lemon, a tablespoonful of melted butter, a quarter cupful of water with a half teaspoonful of Worcestershire sauce in it, well mixed. When the fish is done add a half cupful of tomato juice to the dish gravy, thicken with a little roux and strain into a hot sauceboat.

Work to a smooth paste, add a teaspoonful of highly seasoned French dressing and a little mayonnaise just to soften to a spreading paste. Stuff the shrimp, pressing them together. Lay five on a large lettuce leaf to a portion, lay a stuffed olive in the center and dust with a little paprika.

Drain and dry off a pound of scallops, then with a sharp knife cut them into small pieces. Make a rich cream sauce of three egg yolks, a cupful and a half of light cream, pepper, salt, a tablespoonful of but-

ter, and a level teaspoonful of cornstarch dissolved in a tiny bit of milk. Beat the egg yolks before using them in the cream and stir steadily to make the sauce a fine texture. Add the scallops and cook gently for eight minutes. Cool slightly, then add a cupful of fine dry crumbs, fill buttered ramekin dishes lightly with the mixture, put a little sprinkling of crumbs on top and dot with a few little pieces of butter, bake a delicate brown and serve hot. Pare quarter and seed the cucumbers if the seeds are large, parboil in salted water for ten minutes, drain, dip in beaten egg, then in dry fine crumbs and fry in butter a delicate brown.

Have any large local white fish prepared for baking, leave the head on after cleaning, but remove the eyes. Wash, dry and trim the fins from the fish with sharp shears. ## STYLE EDICTS

Paris, May 2.—The lingerie touch is so important on new spring frocks that the mere presence of dainty collars and cuffs of some washable fabric at once gives a frock a much smarter air.

In addition to collars and cuffs, crisp organdie and lace make vestees and jabots which are equally smart and dainty. They are particularly refreshing on frocks of the smart stiff silks such as taffetas, moire or satin. There is a quaint, picturesque quality to the lingerie or lace-trimmed taffeta frock which does a great deal to give its air of novelty and demonstrates effectively the feminine trend in fashions.

Premet is putting a round gilet of white organdie on the blouse of a charming sapphire-blue taffeta. This gilet is trimmed with four jabots of organdie edged in black, the top one much larger than the lower three. The sleeves are trimmed with double flaring cuffs, the inner one being of stitched taffeta and the outer cuff of organdie edged in black.

Another model in black taffeta, such as our grandmothers used to wear, has the tight sleeves trimmed with ruffles of cream lace which extend almost to the elbow and the neckline edged with a similar ruffle in front.

Francis puts neat little turn-over collars and cuffs of white pique on her daytime frocks of soft wool or crepe. Nicole Groult makes the tailleur dainty and feminine by introducing a white lingerie blouse and curving and the jacket closing. A white line blouse is worn with a jacket of white shantung and a plicated skirt of black satin. It is worn with a black and white dotted tie.

## COLUMBIANA

Charles Felton of Lisbon, Columbi- ana County Boy Scouts executive was the speaker Monday evening at the meeting of the Columbi- ana Rotary club. His talk was on "Boys." George Floyd of Alliance was a visitor.

President elect P. H. Felger was elected a delegate to the International Rotary convention at Minneapolis in June, and Dallas Hepburn was elected as alternate. There will be no meeting next Monday evening, but on Friday evening, May 11 the annual ladies and guest night will be observed at the Methodist

## CHICHESTERS PILLS

THE DOCTOR'S LITTLE PILLS FOR CHILDREN—Ask your Druggist for Chichesters' Little Pills to Bead and Sore Throat, Croup, Whooping Cough, Measles, etc. Ask for your Druggist. CHICHESTERS PILLS, for 40 years known as the best, safest, reliable. They are sold by DRUGGISTS EVERYWHERE.

church, dinner being served by the Ladies' Guild of that church. The newly elected officers will begin their work at that time. The speaker for the occasion will be C. P. Owsley of Youngstown, well-known architect and traveler, who will give an address about Egypt, particularly concerning King Tut's tomb.

The Sorosis society will meet Wednesday evening at the home of Mrs. T. B. Hyland. Mrs. L. W. Schiller will give a paper on "Islands of the Mediterranean Sea," and Mrs. C. R. Todd will present a reading from the works of Inez Haynes Irwin.

The Columbi- ana High School orchestra, under the direction of Mrs. E. F. Miller, played at the Methodist church in New Waterford, Monday evening, the occasion being a meeting of the Parent-Teachers' association of that village.

Under the auspices of the Basement Boosters' class of the M. E. Sunday school, a concert will be given in that church Wednesday evening by the Cambrian Concert company.

Oscar Lesher has purchased the interest of his partner, Charles Zellers in the Lesher & Zellers grocery. Mr. Zellers will devote his time to his farm interests.

An attempt was made to break into the Fullerton service station on North Main st. late Sunday night. A pane of glass was broken out of a window, but the robber was evidently frightened away in some manner before he could make his entrance.

Mrs. Henry Wining and Mrs. H. A. Keller are serving on the jury at Lisbon this week.

A banquet served by the Home Economics department of Columbi- ana High school under the supervision of the instructor, Miss Agnes Watson, will be held Thursday evening in the school building, guests being the members of the board of education and their wives, and the members of the school faculty and their families.

Miss Mary Strubel, student at Wooster college, was a week-end guest of her parents, Rev. and Mrs. J. C. Strubel, South Elm st.

Roland Unger has rented part of the H. A. Keller warehouse on West Friend st., and will begin the manufacture of over-stuffed furniture.

Mr. and Mrs. T. F. Buzard and

## ALWAYS DEAD TIRED?

How sad! Sallow complexion, coated tongue, poor appetite, bad breath, pimples and always tired. What's wrong? You are poisoned. The bowels are clogged and liver inactive. Take this famous prescription used constantly in place of laxative by men and women for 50 years—Dr. Edwards' Olive Tablets. They are harmless yet very effective. A compound of vegetable ingredients and olive oil. They act easily upon the bowels, free the system of poison caused by faulty elimination and tone up liver.

Be beautiful. Have rosy cheeks, clear eyes and youthful energy that make a success of life. Take Dr. Edwards' Olive Tablets, rightly. Know them by their olive color.

## HUSBAND DISTRIBUTES BOOKLETS

Wife Tries Compound

Every year the Pinkham Medicine Company distributes about 30,000,000 booklets from house to house.

Mr. Ted Hinzman does this work in Lodi, California. His wife writes: "It was in these little booklets that I read about so many women being helped by the medicine. I thought I would give it a trial and I can truly say that it has done me good. My neighbors and friends ask me what I am doing to make me look so much better. I tell them that I am taking Lydia E. Pinkham's Vegetable Compound."

## LEETONIA

F. B. Louys has been secured to fill the place in the High school faculty, made vacant by the resignation of F. Parker Orr, mathematics teacher and coach.

Mr. Louys held the position as principal at the eighth month high school at Williamsfield in Antabula county and has finished the school year there and was able to come on to Leetonia and take up his duties on Monday.

Mr. Orr left for Alliance, where he was to be united in marriage today with Miss Pauline Wagener of Alliance. They will leave for Omaha, Neb., where Mr. Orr has accepted a position with the New York Central railroad.

The Columbiana County School Master's club met on Monday evening in the North Side school building where the Home Economics class served an elaborate four-course banquet.

This was followed by an interesting program.

The music was furnished by Joe Bernard and Thomas Colletta on their piano accompaniment. The speaker of the evening was Dr. H. C. Brillhart who delivered his lecture, "What Ails Our Young People." It was most interesting.

Mrs. W. R. Elwonger planned a most delightful party on Sunday to celebrate the birthday anniversary of Mr. Elwonger.

The affair was a complete surprise to the honoree until about 2 p. m. when the guests arrived, bringing well-filled baskets. The guest list included the immediate families of both Mr. and Mrs. Elwonger and were Mr. and Mrs. Perry Albright of Fairfield, Dr. and Mrs. H. C. Albright and family, C. E. Albright and son, Eugene, and Miss Anna Dickey of Salem; Ross Albright and Mrs. Clark Chamberlain of Columbiana; Floyd Albright of Youngstown; Mr. and Mrs. O. D. Elwonger and daughter, Miss Ruth, Mr. and Mrs. Roy Little, Mrs. Nellie Little and daughter, Darlene.

Mr. Elwonger was the recipient of a number of lovely gifts.

Mrs. Edith Switzer, son, Alvin Switzer, Mrs. Norman Hitz and daughter, Edith of Cleveland, were Sunday visitors in the home of the former's father, John Kale.

Mr. and Mrs. A. J. Feyock and children, Paul and Jean, of Hubbard, returned home Sunday evening following a several day's visit in the home of the former's mother, Mrs. Katharine Feyock.

Mr. and Mrs. F. E. Esterly and daughter, Ethel of Columbiana, were Sunday guests in the home of Mr. and Mrs. J. M. Brillhart.

Mrs. Lydia Weaver was a guest in the home of her brother, J. B. Zimmerman of the South Side on Sunday.

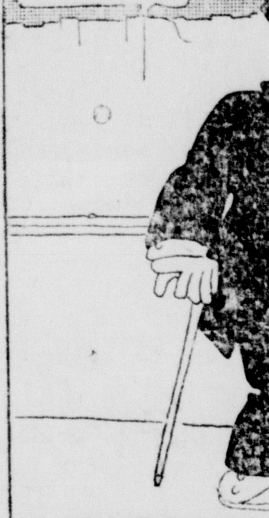

Miss Margaret, Brillhart spent Sunday at the home of Mr. and Mrs. C. J. Halverstadt, south of town, with her cousins, Helen, Esther and Lois Halverstadt.

Dr. H. C. Brillhart was in Youngstown on Monday to attend a ministerial meeting of the Lutheran Ministerial association.

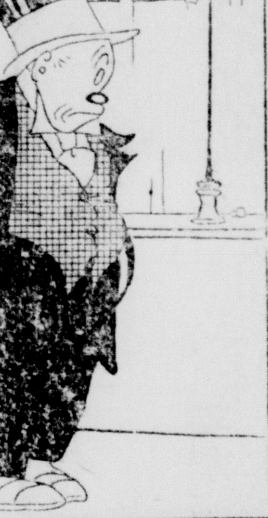

Miss Katharine Howell, Mr. and

ABOUT HEBERLING'S ANTALGIC LINIMENT—"Many poultry raisers have found Heberling's Antalgic Liniment an exceptionally fine and effective medicine for cholera in poultry and for dysentery and white diarrhea in chicks. It can be fed either in drinking water, or in wet mash. The proper way to feed in drinking water is one tablespoon of Liniment to one quart of water. This same solution is the correct mixture for mixing a wet mash. The stimulating effect of this medicine will keep poultry healthy and also reduce the loss of baby chicks from dysentery and white diarrhea. The Heberling Dealer, J. N. Metts, 205 Jennings Ave., Salem, O. 103r

## OPERATORS END DEALINGS WITH MINERS, REPORT

Investigators Find Ohio Situation Is Hopelessly Deadlocked

Athens, O., May 2 — "Coal mine operators are through dealing with the United Mine Workers of America," Fred Beasley, head of an investigating committee of Athens county citizens to conduct a survey of the deadlock between operators and miners, reported to a mass meeting of 700 persons here last night.

Beasley said that operators and miners were "hopelessly deadlocked" and that the committee of investigators of business men which he headed had failed to bring about peace.

A wage scale in accordance with the economic conditions in the various districts was urged by Oral Dougherty, former president of Subdivision C-1 of the United Mine Workers.

"I am going to stick to the organization that I am in, but I am going to try to clean it up," Dougherty asserted. "I am going to attempt to get a wage scale that is fair and one that will give every miner the opportunity to work."

A vote of confidence was given Dougherty by those present at the meeting after he pointed out that the interests of operators, miners and business men were the same and that wages should be at a "happy medium," neither too high nor too low.

Efforts of the deposed subdistrict mine workers union president to rehabilitate the coal industry of Hocking Valley met with approval of the investigating committee, financial assistance being assured him.

## TRAINING CAMP FOR GUARDSMEN

Columbus, May 2 — Ohio's National Guardsmen, 8,500 officers and enlisted men, will receive 15 days of active training at Camp Perry this summer, according to an announcement by Adjt. Gen. Frank D. Tensderson, today.

The second battalion of the 372nd infantry will be encamped at Camp Perry from June 10 to 24; the 74th infantry brigade and 112th medical regiment from June 14 to 28; 37th division headquarters, 37th division "special troops" and 37th division air corps from July 22 to Aug. 5.

The 73rd infantry brigade and 37th division trains will encamp from July 29 to Aug. 12.

The headquarters and headquarters troops of the Ohio National Guard, the 54th cavalry brigade, 107th cavalry regiment, 112th engineers and state staff corps will encamp from Aug. 12 to 26.

The 62nd field artillery brigade will encamp at Camp Knox, Kentucky, from Aug. 19 to Sept. 2.

Gen. Henderson said that Camp Perry was in excellent condition to receive the Ohio National Guardsmen and field training this year will be marked by unusual interest because of the newly created air corps.

## Pretty Akron Girl Acting Mayor Today

Akron, May 2 — Akron has a new city administration today. Twenty Akron university students took over the governmental reins this morning and will rule the city for the day.

Mrs. Marion Walsh, pretty 19-year-old freshman, is acting mayor. All other city offices will be filled by students, also.

## ABOUT TOWN

49th Fire Alarm

Firemen were called to extinguish a shingle-roof fire on a barn owned by S. J. Kurtz, 173 E. High st. in the rear of his home, at 11 a. m. today. Little damage was done.

This was the 49th fire of 1928, nine more than recorded for the same period in 1927.

The 48th alarm of the year was answered at 6:50 a. m. today. Rubbage in the rear of the A and P store on Broadway caught fire, causing the alarm. No damage was caused to any nearby buildings.

Junk Dealer Fined

Louie Tenenbaum, Akron junk dealer, was arrested at 7:20 p. m. Tuesday for soliciting junk in Salem without a license. He pleaded guilty and was fined \$25 and costs by Mayor Hiddleston.

This is the first case under the city ordinance introduced by Councilman Max Adler last summer.

Legion Auxiliary

The regular meeting of the American Legion auxiliary was held Tuesday evening at the home, McKinley ave. Plans were made for a benefit card party to be held May 23. This will be a May party. Arrangements were also made for sending the quota for this quarter to the military hospital at Dayton.

Dodge Team Wins

The Dodge Brothers volleyball ball team defeated the Methodist church team four straight sets in the only game played at the Memorial building last night. The scheduled game between the Masons and Mullins will be played Thursday night.

Fairview School To Close

Fairview school, west of McCracken corners, will close Friday. Features of the last day will be a picnic dinner, games and races. Miss Fay Circle, the teacher, will leave Monday for her home in Meggs county.

Pythian Sisters

Friendship temple No. 100, Pythian Sisters, will meet next Tuesday evening to practice for inspection. All the members are asked to be present.

City Hospital Notes

Two patients have been discharged from the Salem City hospital. They are: Joseph Lippitt and Glen Gorman of Salem.

Salem Grange

Willis Boone, former county deputy, will speak at Salem grange Thursday evening.

## EXPENSES FILED BY WILLIS CLUB

Columbus, May 2 — Len O. Shank, Dayton, as treasurer of the Willis-for-President club, third Ohio congressional district, today informed Secretary of State Clarence J. Brown that the club, during the recent pre-primary presidential preference campaign, received \$2,143 and spent \$2,376.55, leaving a \$223.55 deficit.

In his itemized expense account, Shank credited Col. Carmi A. Thompson, Cleveland, who managed the Willis campaign, with contributing \$1,500 to the club.

Forest F. Tipton, Washington, C. H. editor, filed a statement showing he received \$357.20 and spent \$443.55 during his successful campaign for nomination as a Willis delegate to the Republican national convention from the seventh congressional district. Tipton was private secretary to the late U. S. Senator Frank B. Willis when Willis was governor of Ohio.

William W. Miller, Marietta, reported that he received nothing and gave \$140.50 to the Dawes-for-President club, of Marietta, in connection with his candidacy for delegate to the Republican national convention.

## AVIATOR FAILS TO BREAK MARK FOR ENDURANCE

Roosevelt Field, N. Y., May 2 — Flying alone, Lieut. Royal V. Thomas failed today in an attempt to establish a new world endurance flight record.

He took off at 10:07 a. m. in a single-motor Bellanca monoplane, but encountered trouble within a short time and was forced to descend, making a safe landing not far from where he hopped off.

Thomas found that his plane, which carried 535 gallons of gasoline, was too heavily laden. He couldn't make sufficient altitude to clear hills in the vicinity of the field so he started dumping gasoline. He quickly decided it was advisable to come down, and he did.

"I'll take off again this afternoon if I can get the plane refueled," he said.

The world's record, 53 hours, 36 minutes and 39 seconds, is held by Eddie Stinson and George Halderman.

## HAYWOOD SINKS RAPIDLY TODAY; SUFFERS STROKE

Moscow, May 2 — William D. ("Big Bill") Haywood, former Chicago leader of the Industrial Workers of the World, who has been seriously ill in the Kremlin hospital, suffered a paralytic stroke last night and was sinking rapidly today.

The attending physicians said that Haywood could not recover. Not even his wife was allowed at the bedside.

Haywood has long suffered from diabetes, but the symptoms yielded to insulin treatment. His heart became affected and general weakness developed.

Haywood is 59 years old. He came to Soviet Russia about eight years ago to escape arrest in the United States.

## STATE WILL END MINERS' RELIEF

National Guards Plan to Discontinue Work Next Saturday

Columbus, May 2 — Intention of the Ohio National Guard to discontinue all of its relief work among destitute children of miners' families in the Hocking district next Saturday and in the Eastern Ohio Coal regions on May 15, was announced this afternoon at the offices of Adjt. Gen. Frank Henderson.

O. N. G. officials explained that practically all schools in the Hocking field will have closed for the summer vacation by next Saturday and that the Eastern Ohio schools will be closed by May 15. It was stated, also, that funds contributed by the public and state funds allowed for this organized relief work will have been exhausted by May 15.

In accord with a proclamation issued by Gov. Vic Donahey, urging Ohioans to contribute money, food and clothing for relief of destitute children in families of Ohio coal miners, the Ohio National Guard opened its relief work in the Hocking district, with Nelsonville as headquarters, on Jan. 28, last. Similar activities were started by state militiamen in Eastern Ohio, with St. Clairsville as headquarters, about April 15.

The major part of this relief work consisted of free meals served from kitchens operated in connection with public schools. At the peak of the relief work, 86 kitchens were being operated in the Hocking district. Today there are about 60 of these kitchens in that field and about 17 in the Eastern Ohio district. The Ohio Guardsmen next Saturday will have furnished relief in the Hocking district 102 days.

## SMITH RIVALS SILENT AFTER VOTE IN WEST

Washington, May 2 — Gov. Al Smith's chief rivals in the California primary, Senator Thomas J. Walsh of Montana, and Senator James A. Reed of Missouri, declined to comment today on the decisive victory won by the New York governor.

Walsh said he might issue a statement later but for the present, he didn't care to comment.

F. J. Prince, one of Reed's campaign managers, declared, however, "the fight will go on just the same and will not be abated one jot."

Senator Edwards (D) of New Jersey, one of Smith's warmest supporters, declared that "now that Smith has beaten the opposition on its own stamping ground, nothing can prevent his nomination and election."

"This shows there is no serious opposition to Smith in the west," said Edwards.

## HOUSTON MAN ELECTED NEW SHRINE CHIEF

Miami, Fla., May 2 — Judge Clyde I. Webster, of Moslem temple, Detroit, was elected imperial, outer guard today in the only contested election at the annual convention of the Imperial Council of the Ancient Arabic Order of the Nobles of the Mystic Shrine.

Frank C. Jones, of Arabian temple Houston, Texas, automatically became imperial potentate, succeeding Clarence Dunbar, of Providence, who served during the ensuing year.

## PASCO SHATTERS SALEM SCHOOL'S JAVELIN RECORD

High Track Team Defeats  
Mt. Union Freshmen  
At Alliance

GOOD MARKS ARE  
MADE BY SALEM

Springer To Select Team  
To Enter Tech Meet  
At Pittsburgh

Joe "Babe" Pasco broke the Salem High school record for the javelin for the second time this year, in the Salem-Mount Union frosh meet at Mount field Tuesday. Pasco's throw was 168 feet, 2 inches. His former record was 162 feet, 8 inches, made in the inter-class meet three weeks ago.

Salem defeated the frosh, 58-51, in a meet that was close throughout. Underclassmen composed most of the Big Red squad and were the principals in the victory.

Beside Pasco's mark, Terry threw the shot for a fair toss, winning the event with 38 feet, 2 inches, a foot farther than the second place. Both Smith and Van Blaricom threw the discus around 100 feet, winning second and third, respectively. Smith's throw was 101 feet, 5 inches. Lindquist of Mount won the event with a toss of 112 feet.

C. Walker and Brantingham ran nice miles, 5 minutes, 16 seconds, and 5:18 respectively for second and third. Croskey, Mount, won in 5:15. Salem won three places in the pole vault, Roessler winning first at 11 feet. Schilling and Gregg tied for second and third at 9 feet, 6 inches. Gregg won the high jump at 5:5. In the broad jump, Floyd, Salem won first place, jumping 18 feet, 7 inches. Gregg, placing second, had a jump of 18 feet 3 inches. Rib Allen, national pole vault champ did not compete in the vault.

"Herm" Litty, star hurdler, was delayed on the way to the meet, and didn't get into the 22-yard low hurdles, but won the 120 high in 18 minutes, 3 seconds.

Van Campan, ran his best 440 of the year, placing second in 57 seconds flat, to Booth, former Ash-tabula High sprint star, who won it at 54.8. Booth also won the 100 and 220 running the 100 in 10.8 and the 220 in 24.2.

No half-mile or relay was run. From the results of this meet Coach Springer will choose the team to go to the Carnegie Tech meet Saturday.

He stated this morning that Seeds, dash and hurdle star, may be able to get into this meet, and he had definitely decided to send Roessler and Allen, his pole vaulting stars, to Pittsburgh, refusing an excellent offer from the University of Marquette to send them to the Marquette Relays at Milwaukee.

## RUTH IMPROVING, GETS FOUR HITS

Babe Contributes Homer  
To Help Yanks Again  
Down Senators

With Fitzsimmons and Faulkner on the mound, the New Yorkers trimmed Brooklyn by a 4 to 2 score yesterday. Harper's home run took the steam out of Dazzy Vance.

While the Giants face tough opposition in the coming inter-league contests, the Yankees are again blasting their way through all American league opposition. Led by G. Herman Ruth, who raised his emerald batting average to the respectable mark of .313 by clouting two singles, a triple and his fifth home run, the world's champions trounced Washington again yesterday, 8 to 5. The Senators have lost eight straight.

Pittsburgh again defeated the Chicago Cubs, 4 to 1. Carmen Hill showed only five hits. George Grantham, the League's leading batter, had a perfect day at bat with three bingles.

Red Lucas outpitched Alexander the Great as the scintillating Cincinnati slugger outslugged the St. Louis Cardinals, 6 to 3.

The Boston Braves made their hits count and handed the Phillies a 5 to 3 beating. The Back Bay boys jumped to sixth place.

Johnny Hodapp, whose four errors cost the Indians a ball game on Monday, squared himself with the Cleveland fans by driving in four runs against the St. Louis Browns. These tallies were just enough to give the Indians a 4 to 3 margin.

The rejuvenated Athletics have now copied seven straight games. A timely single by Cobb yesterday staked the Mackmen to a 5 to 3 win over the Red Sox.

Detroit collected 16 hits, including seven doubles, in taking a 10 to 5 slugfest from the White Sox.

Brown Hits Harder.  
Vassar Loses 42-29

"Brown" defeated "Vassar" 42-29 in a slugfest in the High school girls indoor baseball league. Jones, Beck, Lutsch, Groves, Seekins, Carnes and Zelle knocked home runs.

The win advances Brown into second place in the league.

New York—As the result of a proposal by telephone from San Francisco to New York there is to be a wedding in Honolulu shortly. Warren Paulson of Brooklyn, on a tour called up Miss Eva Hewitt of Jackson Heights. She is now on her way to Hawaii and is going around the world on a honeymoon.

## Boxing Commission May Probe Sharkey, Delaney Knockout

BY DAVIS J. WALSH

New York, May 2—The proposed investigation by the New York boxing commission into the circumstances surrounding the Sharkey-Delaney knockout was proceeding today through a labyrinth of innuendoes, suggestive circumstances and allegations.

These were of the type similar to those in circulation before, after and during the course of many fights, only this time they were deemed of sufficient plausibility to prompt chairman James A. Farley to order an inquiry.

Farley, however, did not take this action until the stories were consolidated into a chain of circumstantial evidence and presented by a local newspaper for his consideration in the form of a hypothetical case. The presentation apparently found the official in a receptive mood, for it came as the climax of a week of rumors, sufficiently plausible, in his estimation, to cause him to order a sharply worded warning to the fighters by the referee before the bout.

These stories likewise were alleged to have impressed Tex Rickard to the extent that his matchmaker, Jess McMahon, was supposed to have visited Delaney's camp in order to judge the young

man's condition. It seemed, however, that it was an off day in the Delaney camp, so McMahon is said to have returned without specific information.

The stories further were said to have caused a hurried conference between Rickard, Jimmy Johnston and Johnny Buckley, managers of Sharkey, an hour before the fight. The conference, it was said, threw no light on the situation.

If Farley's proposed investigation takes the usual form, those identified with the bout will be hailed before the commission at its next meeting on Friday. The chairman, however, had nothing to add today to his original statements, contenting himself with saying that many rumors about the fight had reached his ears during the past week or more and that he considered that these were worth looking into.

Of the newspapermen congregated at the ringside, the vast majority saw only a remarkable come back on the part of Sharkey in the 73 second knockout of Delaney. Most of them said that Sharkey "looked great." The writer failed to see Sharkey in that light, it being his idea that the Boston entry looked good only because Delaney obviously was bad.

## HAS NEW PLAN FOR RACE BETS

Promoter of New Track  
Near Cleveland Does  
Not Fear Arrest

Cleveland, May 2—That horse racing may be reinstated in Cuyahoga county sometime next July was revealed here with the announcement made by Tommy McGinty, local sports promoter and owner of Maple Heights race track, that a new \$500,000 race track is nearing completion on the Geauga-Cuyahoga county line.

The running of horses on the new track this summer, it is believed, will provide a test of the anti-gambling edict issued by Sheriff Edward J. Hanratty, which stopped racing in this county two years ago.

McGinty when questioned on the system of betting to be used at his new track declared:

"That's a bridge we'll have to cross when we come to it. Our attorney's have gone over the matter very carefully. We have an entirely new plan and if there is any interference with the authorities will have to interfere with every stock exchange in America. Our plan is similar to the plan used on the floor of the New York stock exchange and I doubt whether there will be any trouble."

The track will be a mile and one-eighth oval and already the first foundations have been laid with the best of draining facilities which will dry the track quickly, the contractor asserted.

"We are going to have some real racing on the new track," John King, manager of the Brooklyn Driving park, associated in the new venture declared. "Already we have received communications from some of the most important horse owners in the country. Some of these horses will be shipped directly from Kentucky and eastern tracks. We also expect to have a number of derby runners entered in the inaugural handicap."

## Wabash Monument To Electric Lights

Wabash, Ind., May 2—Forty-eight years ago this spring on a Saturday evening the city turned its eyes to the top of the courthouse here to see the lighting of the first municipal electric lights in the world.

When the power was turned on to the four strange lights on top of the highest building here, Wabash became the first city in the world to be lighted with electricity.

Today there is a move under way here to erect a monument here with a glass enclosure for one of these first four lamps. The lamp was found buried in a pile of trash.

London—A rumor that police heads have decided no longer to countenance fat men on the police force has thrown consternation among London bobbies who are celebrated for their ample proportions. Big men are gravely arguing the uselessness of a slim servant in a big crowd and have adopted the slogan "fatness means fitness."

## Marriage Question and Nickname "Poker Face" Peeve National Champ

HELEN WILLS IS COMPLETELY ABSORBED BY  
ART AND TENNIS

By SHIRLEY KIRKE  
International Illustrated News Staff  
Correspondent

"I WISH they'd stop calling me 'poker face'. It certainly isn't appropriate and I don't think I look like that, do I?" She looks other than any poker-player imaginable and I doubt if she even knows the card game that gave her the nickname.

Our tennis queen of the rolled courts, be it known, is the antithesis of the athletic type girl.

Off the courts she is shy, stately and beautiful. Her skin is the texture of rose-leaf and she dresses like a New York debutante.

Her appearance is entirely devoid of any muscular boyishness. Of medium height, she is stylishly slim and her clothes testify to the delightful femininity of her taste.

She was speaking in Forest Hills, Long Island, the fashionable colony where national tennis matches are held. Bound for Paris, she stopped off in New York to get in some tennis and shopping before continuing her trip to Europe.

Then came the inevitable subject of marriage. What a mistake! "I am always asked about marriage," complained Miss Wills. "My thoughts really are all on tennis and my art work."

"Of course I like social life. I go to parties and enjoy dancing—but not too much."

"No, I don't drink or smoke." She was quite serious and I remembered how in Europe she divided her time between the courts and art museums, dashing to an exhibition of paintings as soon as she got off her tennis togs.

"For several weeks," she went on, "I intend to devote myself to art studies in Paris before the tennis tournament begins."

On May 22 our national champion enters the Paris championship

HELEN WILLS  
(International Newswire)

matches determined to acquire the title formerly held by Mlle. Suzanne Lenglen.

She has no desire to "barnstorm" about Europe, but shortly after playing in England and Holland she will return to California to begin her senior year at college.

"I adore travel, and especially doing the art galleries of Europe. But I dislike posing for movies and photographs. I don't mind so much when I'm in action on the tennis

courts, but close-ups are annoying." "Not at all like movie stars," I interrupted, and she smiled, for she comes from a state where they are legion.

"I'm primed to take on all comers in tennis this year," she announced firmly. "I feel quite at home now on European courts."

"And (this was the parting shot) if I come back with the championships, I do hope they'll stop calling me 'poker face'."

Lake, Canton, were recent guests of Mr. and Mrs. Bert Stull and Zeph Aspy.

Byron Saffell was to Massillon Saturday night. Mrs. Ruth Elliot is convalescing. It is now thought that she will fully recover.

Mrs. Lila Johnson of Augusta is assisting in caring for Miss Ella Clark who is seriously ill.

Attorney Karl T. Stoffer was to Alliance Saturday.

Mrs. Frank Stuller has returned home from Louisville where she is helping care for her mother, Mrs. August Clair.

Mr. and Mrs. Ray Evans of Magnolia were guests of her parents, Mr. and Mrs. C. E. Stull Sunday.

Leonard Bettis remains very ill at the Alliance City hospital. He was brought home but suffered a relapse and was again returned to the hospital.

Alliance—A truck load of pine trees, taken from the woods in the coal strike areas south of Alliance, has been brought to the city to be planted in Alliance parks. The trees were dug by striking miners in appreciation for aid given them by

Alliance residents. Another truck load is to be brought here next Sunday.

## See the "72" romp away from them all

The one great outstanding fact in automobiles today is that, while practically every car that runs is patterned after Chrysler—the Illustrious "72" continues to romp away from and around them all in every phase of performance that makes motoring a pleasure. Which can and does mean only one thing, of course—that since it can quickly be proven that Chrysler "72" excels every car which seeks to compete with it without a single exception, it unmistakably gives the greatest monetary and performance return which exists in the world's motor-car market today.

Illustrious New Chrysler "72" Prices—Two-passenger Coupe (with rumble seat), \$1545; Royal Sedan, \$1595; Sport Roadster (with rumble seat), \$1595; Four-passenger Coupe, \$1595; Town Sedan, \$1695; Convertible Coupe (with rumble seat), \$1745; Crown Sedan, \$1795. All prices f. o. b. Detroit, subject to current Federal excise tax. Chrysler dealers are in a position to extend the convenience of time payments.

**\$12.50 Set Of Aluminum  
Included With Each  
New Process Range**

One of the outstanding values of the sale is this special offer. The set of extra-heavy aluminum, well-made, polished, easy to keep clean. It is especially designed so that the entire set can be placed in the oven at the same time. Using the Lorain Regulator, whole meals can be cooked in the oven during your absence. When not in use the set can be telescoped so that it will all fit into the toaster.

During this sale you can select any of the beautiful New Process Ranges on our display floor, including those specially priced, and receive the set of aluminum in addition without one penny extra charge.

**New Process Range, Illustrated, Special**

They are big, modern, enameled ranges worthy of the name of New Process on the oven door. Easy to keep clean, no bolts mar the appearance, no projections catch dirt. Concealed gas connections. At this price, without the set of aluminum, they are admirable values—with it, you are getting a bargain seldom approached. Liberal terms at small extra cost.

# U. S. ENGINEERS STUDY BUILDING OF SAFER DAMS

## St. Francis Tragedy Is Cause of Research Into Problem

Washington, May 2.—Stimulated in their investigation of safer reservoir construction by the recent St. Francis dam tragedy in California, engineers of America, under the leadership of the Engineering Foundation, are with renewed vigor attacking the problem of safety and economy in the construction of arch dams.

The U. S. government is taking a hand in the research, a series of small model dams being under construction and study at the University of Colorado, through the direction of the Bureau of Reclamation.

"Efforts of these engineers already are yielding valuable knowledge," said a statement by the Engineering Foundation. "The investigation will be continued with the aim of providing answers to fundamental questions making less remote the probability of disasters such as the breaking of the St. Francis dam."

**Preparing Report**  
Director Alfred D. Fihn, of the Engineering Foundation, will issue soon a report covering the progress of operations on the experimental arch dam constructed by the Foundation's arch dam committee, with the co-operation of engineering societies, United States governmental bureaus, power companies, banks and other organizations, on Stevenson creek in a canyon of the Sierras near Fresno, Calif. The American Society of Civil Engineers is preparing the report.

The Stevenson creek dam, 60 feet high and 140 feet long, cost \$100,000. Erected for the purpose of being destroyed in the interest of science, it probably will be extended to a height of 100 feet, so that it may undergo tests of greater rigor until it finally bursts. So far the dam has resisted the waters that have been loosed according to the Engineering Foundation.

"The dam is shaped like a symmetrical, triangular piece of the side of a round can and stands on its point, curved upstream," the preliminary report showed. "It is of cement concrete without steel reinforcement, and with thousands of parts of instruments embedded for making tests."

**Make Measurements**  
Thousands of measurements of strain, deflection and temperature have been made with the water at various depths up to 60 feet, as well as with no water in the reservoir. Despite the artificial floods sent against it, the dam still stands.

"Engineer and scientists in charge of the experiment declare that the dam should be built higher and tested until it bursts in order that nothing may be left undone in minimizing further human and economic loss through lack of facts upon which more accurate theories and computations may be based."

The tests are being directed by Dr. W. A. Slater, chief of the division of concrete and masonry of the Bureau of Standards.

# MINERS SUFFER AS FAMINE HITS BRITISH FIELDS

## Most Distressing Side Of Depression Is Want Of Families

London, May 2.—The most distressing side of the present unparalleled state of depression in the British coal fields is undoubtedly the suffering and hardship imposed on the miners' families and dependents.

Special commissions, which have toured the South Wales, Durham and Northumberland coalfields, (the districts most affected by the slump) have brought back terrible stories of the plight of many of the towns and villages.

Whole districts are declared to be without work; children are unclothed and undernourished; shopkeepers are struggling under the weight of great debts; and some families are even on the verge of actual starvation.

**Need Prompt Help**  
As coal mining is the only industry existing in several of these areas, it is declared they must be evacuated and go bankrupt, "unless there is some radical and entirely unforeseen change in the situation."

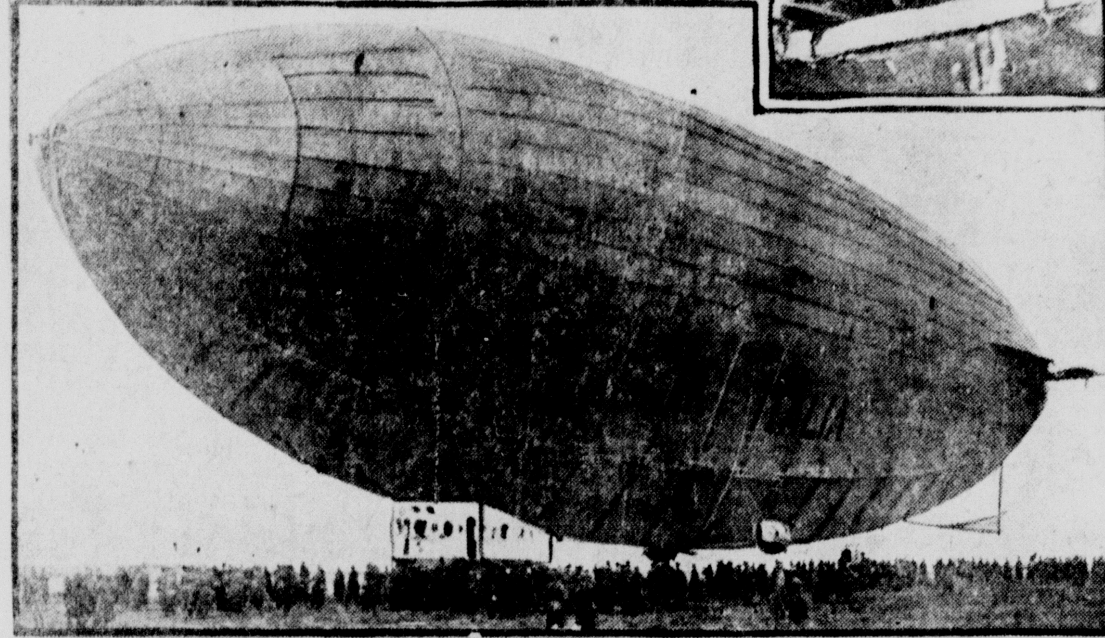

"But for assistance rendered privately," says a report on the situation in South Wales issued by the Labor Council executive "large sections of the population in South Wales mining townships would by now have no boots whatever, and their only clothing would have been worn to shreds."

"School authorities report that the children are losing their 'grip,' and that the average weight of the girls attending school shows a distinct falling-off at all ages. In Blaenau (South Wales) many children were found by the medical officers to be sub-normal from lack of nourishment."

In Monmouthshire the number of scholars who require boots is 3,260, the number who require clothes is 2,639. The figures refer to poverty-stricken areas only, where the school population is about 40,000."

**Great Distress**  
At Maerdy, South Wales, the Labor Executive's committee found "very great distress." Many homes there have been abandoned, and miners leave weekly for other parts

# NOBILE PREPARES FOR POLAR FLIGHT

General Nobile, upper right, with his pet terrier, is now at Stolpp, Germany, where he was forced down while on the way to Kings Bay, Norway. Upper left is the Italia as it appeared over the city before landing. Below is an excellent photo of the giant ship which will carry the Italian General over the North Pole. (International Newsreel)

of the country in search of work. "When people die in these villages," says the report, "a collection is made for the funeral."

Abertillery, a prominent South Wales mining center, is one of the towns most affected by the depression. Hundreds of residents owe rates; 37 stores in the center of the town have closed down; and the local council is thousands of dollars in debt. All school teachers have received notices to terminate their engagements.

## Claims Secrecy Now Possible In Radio

Hong Kong, May 2.—A claim to have discovered a method by which secrecy in radio is assured is made by a young Dutchman named Van Druiten.

Van Druiten is proceeding to the U. S. naval base in the Philippines in the hope of selling his invention.

## Cute in a Baby— Awful at Three —and it's Dangerous

by Ruth Brittan

Thumb sucking does look sweet in a baby, but it is disgusting in the three-year-old and sometimes it hangs on until fifteen or sixteen! The habit may cause an ill-formed mouth or induce adenoids; and it always interferes with digestion. Pinning the sleeve over the hand, attaching mittens, or putting on cardboard cuffs, which prevent bending the arms at the elbows, are some of the ways to stop the habit.

Another bad habit—irregularity in bowel action—is responsible for weak bowels and constipation in babies. Give the tiny bowels an opportunity to act at regular periods each day. If they don't act at first, a little Fletcher's Castoria will soon regulate them. Every mother should keep a bottle of it handy to use in case of colic, cholera, diarrhea, gas on stomach and bowels, constipation, loss of sleep, or when baby is cross and feverish. Its gentle influence over baby's system enables him to get full nourishment from his food, helps him gain, strengthens his bowels.

Castoria is purely vegetable and harmless—the recipe is on the wrapper. Physicians have prescribed it for over 30 years. With each package you get a valuable book on Motherhood. Look for Chas. H. Fletcher's signature on the wrapper so you'll get the genuine. Adv

At Maerdy, South Wales, the Labor Executive's committee found "very great distress." Many homes there have been abandoned, and miners leave weekly for other parts

of the country in search of work. "When people die in these villages," says the report, "a collection is made for the funeral."

to the American authorities for \$500,000.

The mean height of the earth's land is estimated at 2,440 feet.

## Itching Torture

Use Zemo, Healing Liquid

There is one safe dependable treatment for the itching torture of Eczema. The first application of Zemo usually stops itching and gives relief. It will help rid the skin of Pimples, Rashes, Blisters, Blemishes and similar annoying skin irritations.

You will be surprised how quickly skin troubles will react to this clean, antiseptic, soothing liquid. Easy to apply at any time. 35c, 60c and \$1.00.

# 15,000 RETURNS BEING CHECKED

Over 15,000 personal tax returns are to be assorted and checked this year, and although May 1 was tax listing day, only about half this number of returns have been filed.

Field deputies will not be sent out by County Auditor Walker until after all returns filed so far have been checked over for the purpose of giving the field men a correct list of those who have failed to make personal property tax returns.

The "Old Man Eloquent" was a title popularly conferred upon John Quincy Adams.

## DOCTOR'S HOME REMEDY GIVES SPEEDY RELIEF!

40 Year Old Standard Remedy Ends Six Months of Suffering From Indigestion!

Wm. Peck, of Ohio, writes as follows: "For six or seven months I have suffered from indigestion. After eating, I would bloat up and have a heavy feeling just like a knot in my stomach. I used two boxes of Dr. Jackson's Digestive and Liver Powder and have had no trouble since. Am feeling fine now. I cheerfully recommend this remedy to anyone suffering from stomach trouble."

For 40 years Dr. Jackson's Digestive and Liver Powder has been successful in relieving Gas, Bloating, Sourness, Indigestion and other forms of stomach disorder. It is sold by most druggists in boxes at 60c and \$1.00. It is safe and pleasant to take. Write for big free sample. The Jackson Medicine Company, Dept. T, Zanesville, Ohio.

# ICE and a good refrigerator keep foods at their best

THERE is no other refrigerant like ICE. You can depend upon it. In a good refrigerator it maintains a temperature cold enough to keep foods fresh, dry enough to prevent mold, and moist enough to retard the drying out of meat, cheese, butter and fruit.

It is nature's way of preserving the delicious juices and precious, elusive flavors of food.

It is important to have a good refrigerator. This does not necessarily mean an expensive model. You can get a thoroughly good one, correctly designed, tightly constructed and well insulated, at moderate cost. If kept in good order and properly handled, it cannot fail to give the most satisfactory results.
